ACCOUNTING SYSTEMS

Internal Controls
The policies and procedures outlined in this manual are based on internal control principles. Internal controls are designed to limit the risk of misstatement due to errors, theft and misappropriation of District assets. The control environment reflects the overall attitude, awareness, and action of the Board, Administration and others concerning the importance of control and its emphasis in the district. The accounting system establishes a method to identify, assemble, analyze, classify, record, and report the District’s transactions and to maintain accountability for the related assets and liabilities. Skyward is the District’s official accounting system. No other system should be used to track or record financial transactions or data. Using additional systems weakens the information in Skyward, wastes resources, and is ineffective. Every effort has been made to establish policies and procedures that balance the effectiveness of internal controls with the costs associated with implementing them. Commitment to internal control is necessary at all levels of the District in order for the controls to be effective.

Account Code Structure and Detail
It is important to identify the proper account to which an item will be expensed prior to making a purchase. Doing so will ensure that proper approvals have been obtained and transactions are accounted for appropriately. This is applicable to both District and school level transactions. The district uses a 17 digit account code, which is in the following format. It is extremely important that correct codes are used. If the correct account is not available, please either set up the account (school checkbooks) or contact the Accounting Department for assistance.

<table>

</tbody>
</table>

1. **Fund**: two numbers which indicate the source of the funds. The funds utilized by the district are listed below. The need to account for separate operations differently and the fact that many school district revenue sources carry legal restrictions regarding how they can be spent, have resulted in the development of fund accounting for school districts. Fund accounting emphasizes separate detailed accounting and reporting for each of the several subparts of a district, called funds, rather than accounting and reporting for the District as a whole. Significant importance is placed upon the need for the accounting system to assure that spending restrictions are met.

The District has seven funds:

- 10 – General Fund
- 21 – Student Activities (school checkbooks)
- 23 – Non-K12-(Closed)
- 26 – Pass-through Taxes
- 31 – Debt Service
- 32 – Capital Projects
- 51 – Nutrition
- 60 – Insurance
- 75 – Canyons Education Foundation
2. **Type**: one letter which indicates the type of account. R = Revenue and E = Expense.

3. **Location**: three numbers which indicate the location.

4. **Program**: four numbers which indicate the cost center, department or program/grant. Please note that there is no correlation between program numbers used for District programs and those used for school programs.

5. **Function**: four numbers which indicate the revenue source or expense category.

</tbody>
</table>

Revenues and expenditures should be coded to the proper account, regardless of whether there is a budget for the item. For example, if a school or department purchases postage but did not budget for it, the expenditure should still be coded to object 532 – Postage. The department will need to keep their budget in line by spending less in another non-payroll budget category (i.e. supplies). A budget revision may be requested for the change. Refer to the appendix for a copy of the Budget Revision request form.
CASH HANDLING

Checking Accounts
All schools shall have one checking account for receipting and disbursing. The Administrator and Administrative Assistant will determine which financial organization to use. It would make sense to select a financial organization with a close proximity to the school, since timeliness of deposits is required by Canyons School District and State Law.

A. It is recommended that school checking accounts have three signers so a third person is available to sign checks in case the Administrator or Administrative Assistant is unavailable.

B. All checks shall have two signatures. Signature cards should be updated whenever there is a change in Administrators, Assistant Administrators, or Administrative Assistants.

C. Signature stamps should never be used to sign checks. Secondary schools may use a check protector.

D. Never sign blank checks. Checks should be completely filled out prior to signing.

E. Checks should be made payable to a specific payee – never to “cash” or “bearer.”

F. The Administrator should open the bank statement and review it for overdraft notices, bank fees, credit card fees, balances, unusual items, etc. The copies of the cancelled checks should be reviewed for appropriate signatures, reasonable amounts and payor names. The Administrator shall initial the bank statement confirming review before providing it to the Administrative Assistant for reconciliation.

Schools shall only have one checking account. Examples of inappropriate accounts would include: Booster accounts, PTA accounts, School Community Council accounts, Bookstore accounts, and Personal/individual accounts.

Faculty members of a school may have a separate checking account (sunshine fund) if:

A. The account is funded solely by faculty dues

B. The account is maintained and reconciled by a faculty member other than the Administrator or administrative Assistant.

C. The Administrator or the Administrative Assistant may not be a signer on the account.
D. The checking account is used solely for the purpose of the faculty. Examples of acceptable purchases would be flowers (birthdays or funerals) or gifts for special occasions.

Checking accounts must be reconciled in a timely manner – usually two weeks following the statement date.

A. Interest earned on checking or savings will be receipted into the general program. The account code used is LOC 2000 1510 999. Only interest revenue should be posted to function 1510.

B. Contact the Accounting Department with any problems or questions when reconciling the bank statement.

Savings and Investment Accounts
Utah State Code Section 51 requires that all monies invested by public entities be in compliance with the Utah Money Management Act.

Savings and investment accounts are encouraged to maximize interest earnings. Excess funds that are not needed for day-to-day operations should be invested into a sweep account, high-yield savings account, money market account or certificate of deposit with a twelve month or less maturity.

Any school that wishes to invest its excess funds in any investment vehicle other than those mentioned above must contact the Director of Accounting, Auditing and Budgeting to ensure compliance with state law.

School Credit Accounts
It is generally recommended that schools not have credit accounts. All school purchases should be made by a school check or Purchase Card. If charge accounts are deemed necessary by an Administrator, then they may be used under the following conditions:

A. The account is opened in the school’s name, not the District’s name.

B. All charges on the account are the responsibility of the Administrator.

C. The credit application is signed by the Administrator. Only school employees making frequent purchases should be authorized to sign on the account.

D. An open purchase order is approved by the Administrator with a “not to exceed” amount on the face of the purchase order.

E. The original charge slip or receipt must be submitted to the Administrator for approval and reconciled each month by the Administrative Assistant to the vendor’s statement.
F. Schools are required to submit lists of all credit accounts they have open along with their end of year financial report.
CASH RECEIPTS

All monies received by schools and departments must be receipted and recorded. District department receipts must be brought to the Accounting Department and placed securely in the safe.

Elementary Schools

All cash received (including school lunch money) shall be deposited twice a week or at least every three days as required by Utah Code 51-4-2.

The Administrative Assistant will receipt all money into Skyward, print a Skyward receipt and prepare a deposit slip. The only exception to this is lunch money where the nutrition workers will count the money received and fill out a deposit slip. The Administrative Assistant will still receipt lunch money into Skyward. For more information on the lunch deposit, refer to the School Ledger Account – School Lunch section of this manual.

The Administrator will take the deposit to the financial institution. It is preferred that the Administrator wait for the deposit receipt after dropping off the deposit. If the Administrator cannot wait for the deposit receipt, verification of the deposit should be made within 1-3 business days. This is usually accomplished by the school requesting that the receipts be mailed or by the Administrative Assistant’s verification on the financial institution’s website.

There may be a few times a year when an administrator is not available to take the deposit to the bank. In these rare instances the financial secretary or the school’s Achievement Coach may take the deposit to the credit union or bank. When a substitute principal in sitting in for an administrator who is on an extended leave of absence; the substitute administrator should be taking the deposits to the bank.

In elementary schools, teachers may collect money from students for fundraisers (e.g. cookie dough) or when a product is received (e.g. book club). The teacher shall record the student’s name and amount paid in a log that shall be submitted along with the money to the Financial Secretary on a daily basis.Faculty shall not keep money collected from students in their classroom overnight nor on their person at any time.

Library fines should be brought to the front office. The media specialist will record the student’s name and amount paid on a log and submit it along with what was collected to the Financial Secretary on a daily basis.

Other factors to consider:

A. Two party checks should never be accepted.

B. Do not cash personal checks from Administrators, faculty or parents.

C. The borrowing or stealing of school funds is illegal.
Secondary Schools
All receipting at middle schools and high schools must be done at the main office. **No receipting is to be done in the classroom.** If a teacher needs verification that a student has paid a particular fee, a copy of the receipt should be requested from the student.

**A. Daily Preparation to Receipt Cash**

1. Log into the financial system using a unique user ID for each machine. This is important because the Receipts Reports are sorted by date, receipt number and user ID. Each user is responsible for all activity and transactions performed under his/her user ID.

2. Ensure that each cash drawer has a sufficient beginning balance. This amount is used to make change and should be consistent from day to day. A suggested amount is fifty dollars ($50.00) per drawer.

**B. Closing Receipts for the Day**

1. Receipting should take place late enough into the day to accommodate the majority of students and parents, but not so late that receipts cannot be prepared in time to deposit that day.

2. At the end of each day print a Receipts Total Report. This report will identify by user id; the student’s name, amount tendered and method of payment (cash, check, credit, waiver, refund). This report is used to balance and reconcile the daily receipts with the daily bank deposit.

3. The beginning cash balance of fifty dollars ($50.00) should be removed from the cash receipts and secured in the safe for the following day’s business. Do not include it in your count.

4. The remaining cash, checks and credit card receipts should agree to the Receipts Total Report. This count and reconciliation should be performed by the person who receipted the cash for that session and whose user ID appears on the Receipt Report. This person will prepare a deposit slip for their portion of the day’s receipts (cash and check) and place the deposit slip and funds in a deposit bag for an Administrator to take to the bank. Deposit bag(s) should be stored securely in the safe until the Administrator is ready to take them to the bank. Deposits will be made daily.

5. School lunch money should be receipted by the Nutrition Department’s employees and deposited daily. Lunch funds are not to be combined with the school’s other deposits.
6. An Administrator will take the deposit to the bank or credit union. It is preferred that the Administrator wait for the bank deposit receipt. If the Administrator cannot wait for the bank deposit receipt, verification of the deposit should be made within 1-3 business days. This is usually accomplished by the school’s request that the receipts be mailed or by the Administrative Assistant verification on the bank’s website. **Administrators should never leave deposits in their office, home or vehicle unattended.** Deposits should never be held overnight except for late games and the deposits should be secured in the safe.

C. Special Event Receipting (Ticket Sales)

1. Sports events, dances and musical productions are examples of school activities where tickets will be sold.

2. Each school will have numbered tickets for each pricing group. For example, blue tickets could be $3.00 for students, red tickets could be $5.00 for adults and green tickets could be $20.00 for families.

3. Two adult staff or faculty members should sell tickets together. This reduces the risk of theft.

4. An Activity Accounting Worksheet (commonly referred to as a count sheet) is to be completed for each cash box used for every school activity or event where a cash box is used and/or tickets are sold. Refer to the Appendix for a sample of an Activity Accounting Worksheet.

5. The activity (example: boys basketball game), date and starting cash amount is entered on the Activity Accounting Worksheet.

6. The person preparing the cash box should staple to the Activity Accounting Worksheet the first ticket from each of the “ticket rolls”. The next ticket on each of the “ticket rolls” will be the first sold tickets. At the **end** of the activity, someone other than the Ticket Sellers must staple to the worksheet the now first tickets from each of the “ticket rolls”. These are the tickets after the last sold tickets. The quantity of tickets between the two stapled tickets for each roll on the worksheet is evidence to the Administrative Assistant how many tickets were sold for each group and how much money should have been collected.

7. At athletic events, each patron is given a ticket. The patron gives the ticket to the Ticket Taker (this is someone different from the “Ticket Seller”). The Ticket Taker tears the ticket in two and stamps the hand of the patron. The hand is stamped so the patron can easily come and go.
8. At dances the patron shows the ticket to the ticket taker because some students want to keep these tickets. It is suggested that schools keep a list of who purchased dance tickets in case these tickets are forgotten or lost.

9. The two people who sold the tickets and collected the money should count the money together and reconcile it to the Activity Accounting Worksheet. Quantity of tickets sold multiplied by the ticket price should equal the total amount of cash received. The Activity Accounting Worksheet should be signed by both individuals and the cash box with the worksheet is turned over to the Administrator at the event. The Administrator will secure the cash box in the school safe for the next day’s deposit.

10. Proceeds from the ticket sales must be reconciled by the front office staff the next business day. For example, tickets sold for admission to Friday night’s basketball game and Saturday’s dance must be reconciled to the corresponding cash received and deposited on Monday; if Monday is the next working day for school office staff. The reconciliation may be performed by the Administrative Assistant or by someone authorized by the head Administrative Assistant. It is preferred that two people count the cash and prepare the deposit slip.

11. Refer to the “Cash Boxes” section of this manual for additional information regarding use and handling procedures.

**Cash Boxes**
Secondary schools usually have large amounts of cash secured in the school’s safe for the purpose of “funding” cash boxes. Cash boxes are used to secure cash and check receipts for various event sales. Examples of events where a cash box would be used would include (but are not limited to): lunch receipts, gate receipts, dance ticket sales and front office cash drawers.

A. Each cash box shall be numbered and an even dollar amount established.

B. Each cash box shall contain a blank Activity Accounting Worksheet (count sheet) that can be used for event sales. Refer to the Appendix for a sample Activity Accounting Worksheet (schools are encouraged to adapt the form to their needs). It is important that the responsible individuals use the count sheet to track ticket or other sales and accurately count the funds after the event is over. Counts shall always be completed by two people. After the count is completed, both individuals shall sign the bottom of the Activity Accounting Worksheet (count sheet) certifying the count.
C. Each secondary school should keep a summary of their cash boxes as shown below:

<table>
<thead>
<tr>
<th>Cash Box Number</th>
<th>Cash Box Purpose</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Lunch Drawer</td>
<td>$50.00</td>

<tr>
<td>7</td>
<td>Event Start-Up</td>
<td>100.00</td>
</tr>
<tr>
<td>8</td>
<td>Event Start-Up</td>
<td>100.00</td>
</tr>
</tbody>
</table>

Total amount of cash in Cash Boxes $550.00

D. When an event takes place, the Administrative Assistant will sign out the cash box to a responsible individual by using a Cash Box Transfer Form. The Administrative Assistant will keep this form until the cash box is returned. Refer to the Appendix for an example of a Cash Box Transfer Form.

E. When the cash box is returned, the Administrative Assistant will “sign in” the cash box by verifying the proper amount is in the cash box. This requires that the cash be counted by the Administrative Assistant and the individual who originally signed out the cash box and compared to the completed Activity Accounting Worksheet (count sheet). Any discrepancies between the final count and the Activity Accounting Worksheet (count sheet) should be noted and resolved. Finally, the Cash Box Transfer Form shall be initialed and dated by the individual and the Administrative Assistant confirming all cash has been returned and accounted for.

F. The cash in the safe should be recorded on the school’s ledger of accounts (general ledger). The account code used is A LOC 0000 8113 888 – Cash Boxes and Safe.

G. The cash should be counted regularly and matched to the ledger balance to determine if the correct amount of money is in the cash boxes and cash drawers.

H. When a change at the school is made in the Administrator or Administrative Assistant, the outgoing and incoming persons should agree to the amount of money in the vault. The total amount of money in all cash boxes should not exceed $2,000 for middle schools and $4,000 for high schools.

**Petty Cash Funds**

Canyons School District strongly discourages all elementary and secondary schools from maintaining a petty cash fund. The usage of petty cash funds in schools is infrequent and with the issuance of district credit cards (P-Cards), the petty cash fund is no longer necessary.
Miscellaneous

A. Do not accept two party checks for any reason.

B. Do not cash personal checks or IOU’s.

C. Deposits should be taken to the bank by an Administrator or Assistant Administrator.

D. The “borrowing” of funds is strictly prohibited.
CASH DISBURSEMENTS

All disbursements made by a school should be by check or P-Card. Please refer to the Purchasing Card Training Manual created and distributed by the Purchasing Department for specifics on P-Card usage and restrictions. Please contact the Purchasing Department to obtain a copy of the P-Card manual.

A. All school purchases must be authorized by the school Administrator prior to any check being paid. If a faculty member makes a purchase with personal funds and requests to be reimbursed by the school, the Administrator must have given their approval prior to the purchase. The only exception to this rule is legislative teacher supply funds. Please refer to the “Approval Process – Elementary & Secondary Schools” section of this manual for more information.

1. Legislative funds are approved by State Law and, therefore, the Administrator does not need to pre-approve expenditures made with these funds. The Administrator must verify that legislative funds are used for teaching supplies and materials. Teaching supplies and materials can be expendable or nonexpendable items that are used for educational purposes by teachers in classroom activities and may include items such as paper, pencils, notebooks, supplementary books and resources, lab supplies, etc. The definition of teaching supplies and materials should be broadly construed in so far as the materials are used by the teacher for instructional purposes. Refer to Utah Administrative Code R277-459 for additional information.

Refer to the Legislative Classroom Supply Funds section of this manual for additional information.

B. Every check should have supporting documentation as backup. And all supporting documentation should accompany the check when presented for signature. To confirm that the supporting documentation was reviewed and disbursed funds have been approved there is a verification process that can be documented by one of the following methods:

1. Retaining a copy of the signed check or
2. The Administrator initials the check stub or
3. The Administrator initials the reviewed invoices or
4. An Approved for Payment Form (adopted by some schools) needs to be signed.

C. All checks should be pre-numbered, used in sequence and properly safeguarded at all times. Check stock should be locked in a secure location.
D. Checks should be made to a specified payee. Checks should never be made to “Cash”.

E. Voided checks should have “Void” written across the face and the signature line cut out.

F. The use of signature stamps is prohibited.

G. Never sign blank checks. Checks should be completely filled out prior to signing.

H. All checks should have two signatures. In the case of secondary schools with signature machines, the Administrator should review and initial each check copy before it is run through the signature machine.

I. If an Administrator wishes to request reimbursement for an amount greater than $20, the reimbursement must be approved by their area supervisor. Documentation of this approval must be attached to the back of the cancelled check along with the other supporting documentation. For example, if approval is obtained by email print a copy of the email and attach it to the cancelled check.

**Gift Cards**

Schools and departments should never purchase “general use” gift cards or gift certificates like a VISA gift card. Examples of acceptable gift cards would be from Wal-Mart, Target or a card to a specific store.

These cards/certificates are only allowable if **all** of the following are true:

A. No one individual should receive more than two a year and no more than $40. This includes gift cards from a Canyons School District department to an educator for their assistance in a district project. This does not include gift cards given to educators by an outside company (example: a survey company handing out gift cards to teachers assisting with students taking surveys).

B. The face value of each card is not more than $20. An employee may receive any dollar combination of gift cards just as long as no one person receives more than $40 worth of gift cards per year.

C. They are never purchased to “use up” a remaining budget amount,

D. They are kept under lock and key as though they were cash,

E. A list is made of the recipient’s name; why and when they received the gift card; and the list must include the recipient’s signature confirming they received the gift card. *(see appendix for sample form)*
F. The list in “E” above is attached as backup to the check or kept in a separated file folder.

Three main issues arising with gift cards/certificates are:

A. Special tax rules apply to these items. Potentially, these items are taxable both to the employer (payroll taxes) and the employee (payroll and income taxes) – see IRS Publication 15-B – Employers Tax Guide to Fringe Benefits.

B. Preventing the theft of these items is as difficult as cash. Since these items are desirable, can be easily used or sold for cash, and cannot be traced to a user/seller, for all intent and purposes they are cash.
School Ledger Accounts

The school’s general ledger (often referred to as a balance sheet) is a picture of the school’s financial position at any given point in time and is ultimately the responsibility of the Administrator. It is very important that the school’s general ledger is reviewed on a monthly basis and account balances are reviewed for accuracy. Programs with a continual deficient balance should be closely monitored by the Administrator and corrected before too much time has elapsed.

General Account

The General Account (program 2000) should be used to track expenditures that are made for the support of the general student population. This is a student miscellaneous account where items purchased must either directly or indirectly benefit the children. This account should not be used for faculty or staff treats, food, gifts, perks, etc. – expenditures such as those should be coded to the Administrator’s Discretionary Account (program 2001) or purchased using contributions from the Faculty Fund (sometime referred to as the Sunshine Fund). Examples of charges to the general account are:

A. School supplies and textbooks.
B. Student assemblies in support of the instructional program.
C. Transportation costs to art and music festivals, math and science contests, and other types of student travel that are part of a basic instructional school program.
D. The support of student recognition programs such as National Honor Society, Student of the Month, and other student programs that build incentives and support student achievement.
E. Bank fees, with the exception of returned checks.
F. Costco membership renewal.

Examples of money received that should be posted to the general account are:

A. Unrestricted donations that are not from the Canyons School District Foundation should be posted to R LOC 2000 1920 999. Examples would be box top donations and donations from Kroger, Target and Fresh Market.
B. Building rental proceeds sent to the school from the district office should also be coded to general. Use account code R LOC 2000 1710 999. Call Accounting if you need assistance in creating account program numbers.
C. Bank interest should always be posted to general. Use account R LOC 2000 1510 999. DO NOT USE THIS ACCOUNT NUMBER FOR ANYTHING ELSE.

D. Student recycling proceeds should be posted to the general program. Use account R LOC 2000 1750 999. Faculty recycling proceeds may be posted to the Administrator’s Discretionary Account (Program 2001) or the Faculty Fund (program 3610).

E. Energy Rebate Checks

Call Accounting if you need assistance in creating account program numbers.

**Administrator’s Discretionary Account**

The Administrator’s Discretionary Account (program 2001) should be used to track expenditures for faculty and staff. This account is to allow the Administrator some flexibility on how to give moral support and encouragement to personnel. The amount spent out of this account must be paid using non-restricted funds the school has within its checking account. Non-restricted funds would be picture commission, faculty recycling and faculty/student vending commission. Schools should never cover the costs of this account with District budget money, student fees or school donations. Purchases from this account must still follow normal purchasing procedures. Some examples of appropriate expenditures are:

A. Annual association dues for Administrators and Assistant Administrators.

B. Cost of sending an Assistant Administrator on a student trip.

C. Conference registration.

D. Food for staff and faculty on back-to-school night or parent teacher conferences. Food and treats for staff meetings.

E. Water machine rental and service.

F. School sweatshirts or t-shirts for staff and faculty.

Some examples of inappropriate expenditures are:

A. Personal bills (e.g. utilities, groceries, rent)

B. Extravagant excessive items (e.g. TV’s, Jazz Tickets)

C. Birthday presents, wedding presents, bereavement and retirement gifts
D. Party supplies

The volume and dollar amount of purchases from this program are to be reasonable and not excessive. This account should never be in a deficit position. When this program is in a deficit position it means that student funds are paying for faculty and staff expenditures.

The following schedule gives the principal some guidance on where to charge expenses:

(1) HAS TO BE IN THE SCHOOL COMMUNITY COUNCIL MEETING MINUTES

If there are areas that are not covered on the above chart, please feel free to contact the Accounting Department at 801-826-5341 to receive an answer to your question.
Vending Accounts
If a school has vending machines, the profits and losses on those machines should be tracked in their own program accounts (program 2095-Water Vending; 2096-Student Vending Beverage; 2097-Student Vending Candy/Snacks; 2098-Student Pencils/Erasers/Paper; 2099-Faculty & Staff Vending). At year-end, the balance in the Water Vending Program and the Faculty Vending Program (whether positive or negative) should be transferred to the Administrator’s Discretionary Account (program 2001) to maintain the profit/loss year-by-year information. The year-end balance in the Student Vending Program may be transferred to the General Program (program 2000) or Administrator Discretionary Program (program 2001) as deemed necessary by the Administrator.

Picture Commission
Picture commissions may be posted to the Picture Commission Account (program 2068) or to the General Account or the Administrator’s Discretionary Account as deemed necessary by the Administrator.

Faculty Fund
Most schools have a faculty account/fund (sometimes referred to as the Sunshine Fund) that generates funds through annual donations or dues paid by the school faculty and staff. This account is to be used for the purchase of:

A. Birthday gifts, wedding gifts, bereavement and retirement gifts
B. Party supplies

A. If this money is kept on the school books (program 3610):

1. The account should never be in a deficit position. If this program is in a deficit position, it means that student or district funds are paying for faculty expenditures. Additional funds should be collected from the faculty to bring the program back to a positive balance.

2. This account should only be funded by employee contributions. Under no circumstances should school or district funds be used to subsidize this account.

3. Purchases from this account should not be made using the school’s or district’s sales tax exempt status.

4. Purchases from this program MUST comply with Canyons School District policies as described in this manual. For example, if a gift certificate is purchased as a retirement gift for a retiring staff member, care must be taken to ensure the district’s policy on gift cards is followed.
B. This account, in some cases, may be independent of the school’s books (a separate checking account at a local bank or credit union). If that is the case, be aware of the following:

1. The Administrative Assistant in charge of the school’s books should not be involved in the management of the account.

2. The faculty representative that has custody of the account should handle all of the collection of dues, reconciling the bank statements, etc. A separate checking account is opened in someone’s name and social security number. Usually the amounts are insignificant and checking accounts normally do not provide any interest that would be reported to the IRS.

3. Responsibility for proper control and accounting of independent accounts resides with the designated faculty representative. The account will not be monitored or audited by the district or its external auditors.

4. Neither the Administrator nor the Administrative Assistant should approve payments or be a signor of the bank account(s).

5. The account must not use the school’s or district’s sales tax exempt status or federal tax identification number because the only purpose of this account is to provide gifts for its members.

**District Reimbursement Account**

A district reimbursement account (program 9400) is used for purchases that are made with school money, that are later submitted to the District, via an NPO, for reimbursement. Qualifying purchases should be submitted regularly for reimbursement.

When the school makes a purchase using school funds for items they know are going to be submitted for reimbursement, program 9400 should be used when a check is cut. When the school receives a reimbursement check from the district, the money should be posted to the program used when the school check was written (which is typically 9400).

The reimbursement account should be monitored closely so that the balance does not become too large. Please apply for reimbursement at least quarterly. The reimbursement account should be reconciled on a regular basis to ensure that items have been properly coded and tracked. The balance in the program should equal the NPOs that have not been submitted to or paid by the District.
Whenever possible schools should limit the use of district reimbursement accounts and instead use a district purchase order or NPO so the District may pay for the item directly. Doing so eliminates unnecessary and time consuming steps.

Canyons Education Foundation Account
The purpose of the Canyons Education Foundation account (program 9050) is to receipt monies received from the Foundation. From time to time the Foundation may receive a donation or grant for a particular school. The Foundation will deposit the funds and then issue a Canyons School District check to the school for the amount of the grant or donation. Funds received from the foundation must be deposited in program 9050 and tracked separately from donations made directly to the school.

Locally-generated donations and fundraisers should be recorded in a separate program. Unrestricted donations should be posted to the general program. Refer to the General Account section for specifics. Only funds received from the Foundation should be tracked in program 9050.

School Lunch

School Lunch Guidelines
Canyons School District is committed to a school environment that enhances a student’s learning and encourages parents to assist their children in receiving the nutrition needed to stay focused throughout the school day. Therefore, the District has adopted a new meal policy. Refer to Canyons School District Policy Manual – Policy 300.11 for additional information and procedures.

School Lunch Program
The purpose of the school lunch account (program 9070) is to receipt lunch monies collected from students over a month’s time. At the end of each month, all money collected should be removed from this account and sent to the District Nutrition Department. At the end of each month, the balance in the account should be zero. On rare occasions, a timing difference may exist between the amount showing on the school lunch manager’s records and the school’s records. Such a difference should be minimal, reconcilable and cleared the following month.

Lunch receipts should be brought to the front office every day. The daily lunch deposit should be prepared by the Lunch Clerk who brings it to the front office along with a computer printout (Deposit Slip Report) matching the deposit. The front office should not open the deposit bag nor should they make change from it. The Lunch Clerk should be the only individual to touch the lunch money. If the bank notifies the school of a
deposit error on a lunch deposit, the Lunch Clerk should be notified immediately to resolve the discrepancy.

If the school would like to have the funds double counted before bringing the deposit to the bank, then two individuals should count the money together, not separately. The two lunch-room employees counting the lunch funds are to initial the deposit slip report.

The lunch deposit should be placed in a secure location (i.e. the school safe) until the Administrator is ready to drive to the bank. Lunch deposits should be deposited daily for high schools and at least every three days for middle and elementary schools.

At the end of the month, the Lunch Clerk will bring a computer printout report to the Administrative Assistant with the total amount of lunch funds received for the month. This is either the Money Reconciliation Report or the Historical Report-Cash & Check Receipts by Eligibility Report. The amount on this report should match the amount in the school lunch account (program 9070). If these amounts do not match, the Administrative Assistant and the Lunch Clerk should resolve the differences together by going through each day’s deposit and computer records. It is highly recommended that this reconciliation be performed every Friday or every other Friday to minimize time finding differences on the same day that the district lunch check needs to be issued.

One explanation for a difference could be a lunch refund check that the front office has issued to a parent. Lunch Clerks are no longer required to bring cash down to the front office. If this is the case, print the Account Detail Report for Program 9070 and highlight the line item(s) that shows a check was issued from this program to the family/parents and submit it with the month-end nutrition check.

The Administrative Assistant will cut a check to the Canyons School District – Nutrition Department for the total amount due. A Monthly Activity Report for Program 9070 should be printed every month to accompany the school’s lunch check. This is a new procedure. You will need to print the activity report if there are return check differences and lunch refund differences (discussed below), so as a matter of new policy, a Monthly Activity Report for Program 9070 will be printed every month.

As additional backup support for the month-end lunch check, you will attach either the Money Reconciliation Report or the Historical Report-Cash & Check Receipts by Eligibility Report (both of these are ran by the Lunch Clerk).

If a student’s account shows a debt, refer to Canyon’s School District Policy Manual-Policy 300.11 Exhibit 1 for additional information.

Faculty and staff are not allowed to charge meals.
School Lunch Refunds
A parent may request to have a lunch balance refunded at any time. The request must be submitted on the School Lunch Refund Request Form and verified by the Lunch Clerk. **The school’s front office should never issue a refund to a student or parent for lunch money unless they first verify the money was received by the Lunch Clerk (if paid in cash) and has cleared the bank (if paid by check).** A School Lunch Refund Request Form is not required if the student is leaving the school/district. When a student leaves the school/district a Student Checkout Form is used for all fines and lunch balances.

The lunch clerk may print a Refund Receipt from their PCS Lunch Software System. This receipt shows the amount that needs to be refunded to the student. This Refund Receipt printout will also work as backup for lunch refund checks $10 and higher. It also works as verification (**only when signed by the parent**) that the parent received the refund for amounts under $10 (for elementary schools). The lunch clerk or the financial secretary may give this refund back to the family.

**Cash refunds issued shall be signed for by the parent or student.** Refer to the Appendix for a copy of the School Lunch Refund Request Form. The signed School Lunch Refund Request Form must be saved for three years for audit purposes. **ALL CASH REFUNDS MUST HAVE THE PARENTS SIGNATURE (OR STUDENT’S SIGNATURE FOR SECONDARY SCHOOLS) VERIFYING THE CASH WAS RECEIVED.**

School lunch refunds exceeding the following dollar amount thresholds should be in the form of a check: (a) $10.00 and over for elementary schools, (b) $20.00 and over for middle schools and, (c) $30.00 and over for high schools. The only exception to the above thresholds is for high schools at year-end when they are issuing a high volume of refunds to seniors. In this instance, all refunds over $50.00 should be a school check.

Due to the time and effort involved in clearing a student’s school lunch account and providing refunds to students at year-end; all students that are planning to return to the same school or move to a school within the district (from middle school to high school) will have their lunch balances carried forward.

Event Log History Report
Every month the Lunch Clerk will submit to the Administrative Assistant an Event Log History Report. This report will show the refunds and transfers for the month. The Administrative
Assistant will review the report for high dollar and questionable transactions and contact the Accounting Department with any questions or concerns. The Event Log History Report should be kept with the monthly reports.

**Career and Technical Education Class Accounts**

Secondary schools offer CTE classes (e.g. art class, wood shop, automotive repair, etc.) that generally require the instructor to purchase supplies that are consumed by the students taking the class. Usually this requires the student to pay a fee to help cover the cost of consumable class supplies.

Below are guidelines that shall be followed:

A. The instructor prepares a price list of how much to charge the students for supplies consumed. Included on this price list is the class fee that is charged and what the class fee covers. This price list is handed out to the students at the beginning of the term.

B. The student pays the class fee at the main office. Class fees are never paid to the instructor.

C. The student brings the receipt from the main office to the CTE instructor.

D. The instructor logs that the student paid the amount due.

E. An alternative to steps “a through d” would be to have the Administrative Assistant run a report listing all fee paid students for any given CTE class.

F. If the student desires to do a class project that requires more than the minimal class fee, that fee must be paid for at the main office. The student will bring the receipt from the main office to the CTE instructor who logs in the amount paid.

G. Throughout the year, the CTE Instructor, the Administrative Assistant, and the Administrator should meet to review the amounts charged for the consumable products. If the class made a profit, then the class fees should be reduced. If the class lost money, then the class fees need to be increased.

For items made or services rendered and then sold to parents or students, the amount charged should be paid at the main office. Teachers should never accept cash or checks. The main office gives the person a receipt, which then brings it to the CTE Instructor. The CTE Instructor gives the person the item purchased.

Sometimes a parent will have the school’s automotive class work on their car. The parent will pay for the parts at the school’s main office, never to the teacher. The parent returns the receipt to the shop teacher who then releases the car to the parent.
Other Student Accounts
A school may setup any other student club or activity accounts that are appropriate. There is no limit to the number of accounts that may be used, but the number of accounts should be manageable by the Administrative Assistant. Please call the Accounting Department if you have any questions on what program numbers are available in Skyward.
BANK RECONCILIATIONS AND MONTH-END REPORTS

(At the time of printing this manual the District was piloting a system where schools would no longer have a checking account separate from the District. It is expected that over a period of time all schools will move away from having separate checking accounts. As each school transitions to the new system guidelines will be given that will replace this section.)

Bank accounts should be reconciled in a timely manner. The reconciliation should be completed no later than two weeks following the statement date. Timely bank reconciliations help to safeguard the school’s cash resources by reviewing that the checks cashed by the bank or credit union are valid and all deposits are accounted for.

If there are any problems with the monthly reconciliation, please notify the Accounting Department for assistance.

Required reports to be included with the bank reconciliation are:

A. Reconciliation Worksheet – an excel worksheet initialed and dated by the Administrator. The Administrator should review all attached reports supporting the numbers on this worksheet.

B. Bank Statement – opened by the Administrator and initialed and dated.

C. Account Ledger Report (aka The Balance Sheet Report or the General Ledger Report). The account balances on this report should be reviewed for accuracy each month by the Administrator. Programs with a continual deficit balance should be closely monitored and corrected in a timely manner.

D. Cash Receipts Reports. For secondary schools this includes both the SBAA Receipt Report and the Fee Management Deposit Report (formally known as the Pick Report).

E. Cleared Check Report

F. Outstanding Check Report.

G. Checks Voided in Future Month Report

H. Check Request Report (aka the Check Register) - this is a detailed report of all checks printed for the month.

I. Journal Entry Report

J. Event Log History Report (from the Lunch Manager)
Bank Fees and RevTrak Fees
RevTrak and other credit card fees will be posted to E LOC 2000 1090 834. Bank fees and bank supplies (deposit books, etc.) will be posted to E LOC 2000 1090 610.

Interest Revenue
Any interest earned on the bank or credit union statement should be posted to the general student account. The account used will be R LOC 2000 1510 999. Only interest should be posted to this account.

Returned (Insufficient Funds) Checks
Canyons School District has contracted with Outsource Receivables Management for all returned checks, unpaid lunch balances and unpaid student fees. A Returned Checks Authorization Form (supplied by Outsource Receivables Management) must be filled out by each school and given to their financial institution. All returned checks will go directly from the bank to Outsource.

Returned checks (except returned lunch checks) that appear on the monthly bank statement should be recorded in the school ledger as a debit to E LOC 2078 1090 590. When payment on the returned check is made by Outsource the receipt in the school ledger will be a credit to E LOC 2078 1090 590.

The amount in Program 2078 – Returned Checks should be zeroed out annually. The offset entry will be to Program 2000 – General.

When an NSF check goes to Outsource (the district’s collection agency) the following will occur:

1. Outsource will add $20 to the check balance and send a letter to the debtor (person responsible for the debt), and
2. Outsource will send an acknowledgement letter to the school secretary.

The school secretary will then have 5 days after the date on the acknowledgement letter to contact Outsource to remove the $20 fee and cancel the account. After the fifth day, all collections and correspondence with the debtor must be directed to Outsource. If a debtor contacts the school secretary, refer them to Outsource Receivables Management 801-399-3743 or 1-800-325-2702.

If the debtor pays the account before the 15th day from the date of the acknowledgement letter, Outsource will remit to the school, face amount of the check plus $10, Outsource will retain the other $10.

After the 15th day from the date of the acknowledgement letter, Outsource will add another $20 to the balance due. If the debtor pays the account without suit or legal action after the 15th
day, Outsource will remit to the school, face amount of the check plus $20, Outsource will retain the other $20.

If the debtor refuses to pay, ignores letters, phone calls or mail is returned due to a bad address, and Outsource Receivables Management determines the account to be turned over for legal action then treble damages will be added to the account balance and they will proceed with a judgment.

If the debtor pays the account after suit or legal action is filed. Outsource will retain 25% of the balance collected, Outsource will then remit the remainder of the balance to the school. The balance at this point will include, face amount of the check, $20 fee, plus an additional $20 fee and treble damages according to the Utah check law. (7-15-1)

**Secondary School Fee Accounts Sent to Outsource Receivables Management**

The process is the same as what is explained above, except these accounts will be collected on a commission structure. Twenty percent of the total balance if legal action is not taken or 25% of the total balance if legal action is taken.

If a debtor contacts the school secretary, refer them to Outsource Receivables Management 801-399-3743 or 1-800-325-2702.

**Returned Lunch Check Procedures**

The school’s financial assistant will be notified by either their financial institution and/or the District’s Collection Agency that a check has been returned due to insufficient funds (NSF check). The collection agency will send a letter titled: “The Following Accounts Are Assigned to Our Collection Management System”.

The financial assistant will email a copy of the notices received to Denise Gressmen in Nutrition Services. Denise will reduce the student’s lunch account.

When an NSF check goes to Outsource (the district’s collection agency) the following will occur:

1. Outsource will add $20 to the check balance and send a letter to the debtor (person responsible for the debt), and

2. Outsource will send an acknowledgement letter to the school secretary.

The school secretary will then have 5 days after the date on the acknowledgement letter to contact Outsource to remove the $20 fee and cancel the account. After the fifth day, all collections and correspondence with the debtor must be directed to Outsource. If a debtor contacts the school secretary, refer them to Outsource Receivables Management 801-399-3743 or 1-800-325-2702.
If the parent contacts the school within Outsource’s 5-day window and pays cash or pays with a cashier’s check, the financial assistant will prepare a separate deposit slip for this transaction only. No entry will be made in Skyward. The financial assistant must contact Denise in Nutrition Services. Denise will put the money back into the Student’s Account. *This will only work if the payment is handed directly to the school secretary. If payment is dropped into the school lunch “slot” we will have different issues to deal with.*

If the parent does not contact the school, the school’s financial assistant will wait until the 6th day and make the following journal entry:

Debit: 21 R LOC 9070 1600 999
Credit: 21 A LOC 0000 8111 888

At the end of the month, print the month’s activity report for Program 9070 and highlight or circle the return (NSF) check(s). Refer also to the *School Lunch Account* section of the manual for additional information.

**Procedures for Processing Lunch Funds Schools Receive from the District’s Collection Agency**

If the District’s Collection Agency is successful in collecting on the NSF check, they will issue a check to the school for the amount of the bounced check and an NSF fee. These amounts will not be separated. This means that the check will need to be recorded into two revenue accounts.

The financial secretary will enter revenue into the lunch account and the NSF fee into the general account using the cash receipt system in SBAA.

- Credit: 21 R LOC 9070 1600 999
- Credit: 21 R LOC 2000 1920 999
- Behind the scenes, cash will be increased

The secretary will make a copy of the cash receipt, highlight the line item and amount that was posted into the lunch program and give it to the Lunch Clerk. The lunch clerk will enter the cash receipt into the students account. The bank deposit slip that the Lunch Clerk fills out for that day will be off by the amount that the financial assistant directly entered in SBAA. **NOTE:** The deposit should be off by that amount only. Call Accounting if the difference is more or if you have any questions.

Nutrition Services (student account) and the Financial Assistant (Program 9070) have now added the lunch money to the appropriate accounts by the same amount so, at this point, both should still have the same month-end amount.
**PURCHASING**

**General Information & Guidelines**
Schools and departments are to foster an open and transparent competitive procurement environment by gathering multiple quotes or bids prior to making purchases as required by these guidelines. Not all purchases lend themselves to a formal bidding process (building rental, banquets, etc.). However, care should be taken to select vendors who make an effort to serve public entities by competitively pricing their goods and services.

All on-going purchasing procedures and arrangements should be periodically reviewed to permit vendors the opportunity to be part of a competitive procurement process.

Each employee is expected to avoid conflicts of interest or the appearance thereof. If an employee has a personal, professional or financial relationship with a vendor, that employee should not initiate or approve any purchases with the vendor (i.e. the employee or family member(s) is an owner, creditor, debtor, employee, shareholder or member of the board for a vendor). The employee's supervisor should conduct the business in place of the employee in order to avoid a conflict of interest.

Any person acting as a procurement officer for the District or who in any official capacity participates in the procurement of any supplies, services, construction, real property, or insurance for the district shall not ask, receive, or offer to receive any emolument, gratuity, contribution, loan, reward, or any promise thereof, either for the person's own use or the use or benefit of any other person interested in the procurement item.

Certain items of equipment purchased may qualify as a fixed asset. Fixed assets must be tagged and recorded in Skyward in accordance with district guidelines. Please refer to the Fixed Assets section of this manual for additional information.

Supplies that are available in the district warehouse are not to be purchased from an outside vendor.

District and state contracts for supplies and equipment can be used when available. Contact the Purchasing Department for a list of existing contracts.

All items purchased for fundraisers are governed by district purchasing policy. Refer to the Fundraising section of this manual for additional information.

A sole source exists when it is determined that only one (1) vendor can provide a specific product or service. The Purchasing Department is responsible for approving sole source purchases.

Tagging and tracking of equipment by the Fixed Asset Department does not determine whether or not it should be charged to an equipment account. Even though it has not tagged and tracked, equipment still needs to be charged to the appropriate equipment account code (i.e. object code 730 for equipment and 731 for computer equipment). Refer to the Fixed Assets section of this manual for additional information.

**Procurement Thresholds (Bid Requirements)**
The total purchase of items and services costing less than five thousand dollars ($5,000) are to be procured in accordance with the following guidelines:
DISTRICT FUNDS or SCHOOL FUNDS

LEVEL I - $0 TO $1,000
1. Buy from District Warehouse first.
2. District bids or state contracts should be used.
3. Competition not required; however, recommended.
4. Direct purchase by department with NPO, PO, or Purchasing Card.
5. Purchases MAY NOT be divided in order to avoid the next level.

LEVEL II - $1,000 TO $5,000
1. Buy from District Warehouse first.
2. District bids or state contracts should be used.
3. A) Departments to enter a Skyward requisition with or without quotes attached. Two (2) written competitive *quotes required.
   B) Schools, if making purchases from school checking account MUST maintain quote documentation. **Two (2) written competitive *quotes required.
4. Equipment $2,000 and higher, plus items on the exception list, are to be recorded with the Fixed Asset Department.***
5. Purchases MAY NOT be divided in order to avoid the next level.

No NPO’S at this level

LEVEL III - $5,000.01 TO $50,000
1. Entered as a requisition on Skyward.
2. District Bids or state contracts should be used.
3. Purchases MAY NOT be divided in order to avoid the next level.

No NPO’S at this level

Information Technology reviews all computer equipment. All music equipment is subject to review by Instructional Supports Learning Music Specialist.

*Definition of competitive quotes – Telephone call or email. Internet pricing is NOT acceptable. We recommend that you request that vendor(s) restate their telephone quote in an email.

**Please keep your written copies for audit purposes.

***Tracking does not determine whether or not it is a fixed asset. Even though it is not tracked, equipment still needs to be charged to an equipment code.

Purchasing Clarifications
- The purchase of goods and/or services under $5,000 may be obtained using a state contract without getting bids. It will be the purchasing party's responsibility to make sure the items being purchased are covered on a state contract. A copy of the first page of the contract and
the commodity code descriptions must be attached to the Requisition or school check. It is the responsibility of the schools to ensure the purchased items are listed on the contract. The first page of a State of Utah Cooperative Contract lists the commodity codes. The description of the commodity codes is found on the Summary Document.

- If you purchase from a state contract and later need additional uniforms for a few additional players, Canyons policy dictates that you may go back to the same state contract, but be sure to indicate on the order the reason for ordering more uniforms so if it is audited there will be no question the order was not split.

- If purchases of clothing (spirit packs, etc.) has been done on a purchase order and more of the “same items” have to be from the same vendor to ensure the same colors are matched, then a sole source document, approved in by Purchased is required before the order is placed, needs to be filled out and this reason will be noted on the form.

- Schools may use the state travel agency, Christopherson Travel Group, for their travel needs without being required to get bids.

  - Should schools want to gather bids on travel they need to procure bids on a student-by-student cost basis or a package-by-package cost basis. No longer, will schools be asked to separate a package travel bid into flight, hotel, bus or ticket cost categories.

  - Travel under $5,000 will follow the Level 2 guidelines of obtaining two written competitive quotes.

Please keep your written copies of quotes and bids for audit purposes. For schools, it is recommended that a copy of the bids be attached to the cancelled check along with the other supporting documentation.

Please note that it is against district policy to split purchases or otherwise artificially subdivide purchases to avoid soliciting bids. Dollar amounts are per order, not per item. Similar items that would typically be purchased at the same time from the same vendor should not be divided into multiple orders. For example, baseball team jerseys and pants should not be placed on separate orders.

Approval Process – District

The location’s appropriate director or Administrator must approve all district requisitions and purchase orders. District purchase orders must also be approved by the Purchasing Department.

Please note that all computer equipment is subject to review by the Director of Information Technology and all music equipment is subject to review by the Instructional Supports Department - Music Specialist.
Approval Process - Elementary & Secondary Schools

The Administrator (or designated Assistant Administrator for secondary schools) must be aware of and approve a purchase before it happens. Faculty and staff should not assume the school will reimburse them for a purchase unless the Administrator gives written prior approval. This can be accomplished through the use of internal purchase requisitions or prior-approval forms (referred to as internal purchase requisitions for the remainder of this section).

All schools are required to implement an internal purchase requisition system whereby prior approval can be obtained and documented for **ALL purchases (including reimbursements for purchases made by faculty and staff with personal funds)** with the exception of purchases made with legislative funds and recurring purchases supported by an approved contract. Please note that faculty may use their legislative funds to make a purchase without obtaining prior approval.

Refer to the Appendix for a sample Internal Purchase Requisition Form. Schools may design their own internal purchase requisition form, but it must at least include all of the information contained in the sample internal purchase requisition form provided in the appendix.

A. Internal purchase requisitions must be approved (signed) by the Administrator or designated Assistant Administrator (the Administrator) prior to procurement.

B. Prior to signing and issuing an internal purchase requisition, the Administrator should ensure that all necessary information is listed (i.e. date, vendor, item description, price, quantity, amounts, etc.) The Administrator must sign each internal purchase requisition before remitting it to the requesting faculty or staff member.

C. Faculty and staff should not make any purchases (with personal funds or school funds) without first obtaining a signed internal purchase requisition form.

D. All checks issued must be supported by an invoice and an internal purchase requisition approved by the Administrator.
   
   A. The only exception to this rule is purchases made with legislative funds and recurring purchases that are supported by an approved contract (e.g. vending contracts, utility bills and purified water dispenser/bottled water refills).

   B. An invoice and a packing slip must support purchases from the internet submitted for reimbursement.

   C. If an Administrator wishes to receive reimbursement for amounts greater than $20, then the reimbursement must be approved by their area supervisor. Documentation of that approval needs to be attached to the back of the cancelled check.

   E. Occasionally, a faculty or staff member may need to make a purchase without being able to determine the exact cost. In these instances, the person should completely fill out the
internal purchase requisition form except for the price. In lieu of an exact price, they must write “NOT TO EXCEED $_________” across the bottom of the internal purchase requisition form and fill in the maximum amount the Administrator should approve. The internal purchase requisition form should then be given to the Administrator to review and approve before making the purchase. After the purchase has been completed, fill in the actual price on the form.

F. Once the purchase is made, the employee must deliver the signed internal purchase requisition form and the invoice to the Administrative Assistant so a check can be issued to the vendor or a reimbursement check issued to the employee.

   A. If applicable, the employee must also provide any other required supporting documentation to the Administrative Assistant at this time (i.e. documentation of 2 bids and/or packing slip)

G. Blank internal purchase requisition forms should not be given to students or parents (i.e. booster parents).

H. All school purchases are subject to CSD purchasing policies.

Verification of Purchases Made with District Funds

The Canyons School District strives to maintain a positive working relationship with its vendors. These guidelines are to be followed so that prompt and accurate payments are made to our vendors:

   A. Before Accounts Payable will pay a vendor invoice, proper documentation must be received from the school or department verifying that the invoiced goods were received. Verifications should take place within 1 – 2 days after receipt. Verification should include the signature of the receiving employee indicating the goods were received, the PO number, and whether the PO is now fully received (complete) or partially received (some items have not been received yet). Once verified, the individual sends the documents to Accounts Payable.

   B. In order to expedite payment, it is preferred that this verification is done on a copy of the PO by indicating which items were received and that payment can now be made. If no PO is received or if the PO is open, please verify on a packing slip (shipping documents). If neither a verified PO nor a verified packing slip is received by Accounts Payable before Accounts Payable receives the invoices for the items, the Accounts Payable clerk will send a copy of the invoice to the school or department to verify on.

   C. If there is a problem with a shipment or invoice, it is the responsibility of the school or department, not the Accounts Payable Department, to contact the vendor and resolve the issue. Please notify the appropriate Accounts Payable clerk of any problems that involve a delay in payment.

   D. Credit memos should also be verified and sent to the applicable Accounts Payable clerk.
E. If the invoice offers a discount, the verification must be completed and returned to Accounts Payable immediately so that the District can submit payment in a timely manner. Standard (non-discount) verifications are to be completed and returned to Accounts Payable within 1 – 2 days.

F. Please be careful to properly mark the invoice as a complete or partial payment. A partial payment means that the entire PO has NOT been shipped and received (PO will remain open). A full payment means that the PO has been shipped and received in full (PO will be closed).

Contracts

The Superintendent, Deputy Superintendent for Business Services (CFO), or their designee signs all contracts that bind Canyons School District. School principals can sign a contract or purchase agreement for less than $2,000, if it is consistent with the District policy and procedures and as long as the vendor understands that it does not bind Canyons School District. If the contract value is greater than $2,000, the Deputy Superintendent for Business Services (CFO) or his/her designee must approve the contract.

Under no circumstances should booster clubs, coaches, teachers or other unauthorized employees sign any type of contract that would obligate the school or District in any way or allow use of school or District logos, mascots or other tangible or intangible property.

Purchase Cards

Overview
The purpose of the purchase card (p-card) is to establish a more efficient, cost-effective method of purchasing and paying for smaller transactions. The p-card is designed to replace a variety of processes including petty cash and NPO’s.

All p-cards are issued at the request of your director, supervisor or principal and only certain positions are eligible to receive one. Purchases made with your p-card are subject to review and your p-card may be suspended or revoked at any time.

To obtain a p-card please contact the Purchasing Department and attend a purchase card training.

US Bank - Access Online
All p-card holders are required to use US Bank’s Access Online system to manage their cards.

Please refer to the Access Online Memo, US Bank Access Online Instructional Manual and the P-card Training Presentation for detailed information regarding important deadlines, acceptable/unacceptable card use and the use of Access Online to manage your p-card including receiving paperless statements, allocating charges and generating monthly logs. These tools along with several training videos may be found on the Accounting Webpage at: http://www.canyonsdistrict.org/accounting/purchase-cards.
Amazon - Amazon Prime and Business Accounts

How Amazon Business Differs from Amazon Prime

Amazon Prime is an annual subscription program offering various benefits, including unlimited video and music streaming and two-day shipping on eligible items in the contiguous U.S. It is intended to be used by individuals and families.

Amazon Business is a free program for business customers that includes features such as multi-user management, workflows and approvals, and support for purchase order (PO) fields.

Using Amazon Prime with Amazon Business Accounts

Individuals can access Amazon Prime Shipping Benefits in the following ways:

- If you convert your personal Amazon account to an Amazon Business account, your Amazon Prime membership will automatically transition to your Amazon Business account and you will be able to access Amazon Prime Shipping Benefits.
- If you choose to keep your personal Amazon account, and use a different e-mail address to create an Amazon Business account, your Amazon Prime membership will stay on your personal account.
- If you create a new Amazon Business account, you may subscribe to Amazon Prime and access Amazon Prime Shipping Benefits.

Use of Amazon Accounts

***ALL PURCHASES MUST FOLLOW STATE/CSD PURCHASING LAWS AND GUIDELINES***

Due to several concerns from various schools/departments we have been asked to clarify the approved policy and procedures for purchases made through Amazon.

In researching the procedure of placing orders through Amazon, it was discovered that there are several problems with the current way Canyons School District employees are placing orders. Many employees have been using their own personal Amazon account to make both personal and school purchases. This has caused many problems. Some of the problems we have identified are as follows:

- Accidental personal purchase due to school credit card being kept on file on a personal amazon account
- Employees paying for Amazon Prime on their personal Amazon account with school funds by paying for it with the School purchase card.
- Storing of District P-Card information on personal Amazon accounts.
- School Finance Secretary is unable to track a particular Amazon purchase because of privacy issues. Amazon will not communicate with the Finance Secretary during research if a personal Amazon account was used to make the purchase.
Each school is to set up a main Amazon Business account with an Amazon Prime account. The use of individual District Amazon accounts or use of personal Amazon accounts will no longer be used. All purchases must be made either through an employee’s district Amazon Business account login (District email address) or through the main users Amazon Prime account (school/department Amazon email address). Employees, who currently have an Amazon account attached to their Canyons School District login, will be able to convert their current account to an Amazon Business account.
Fundraisers

Any Administrator, faculty or staff member, coach, advisor or other district employee that is involved with fundraising shall review and comply with the standards set forth in Canyons School District Policy-Administrative Regulation 200.25 and Utah Administrative Code R277-113. The Canyons School District policy manual is available online at http://policy.canyonsdistrict.org. The Utah Administrative Code is available online at www.rules.utah.gov.

The District recognizes that there are times when it may be beneficial to raise funds for specific projects and school activities. The District also recognizes its responsibility to protect students, parents and community members from undue pressures applied through fundraising efforts. The guidelines outlined in this section are intended to provide schools with the ability to raise funds without unduly pressuring students, parents and community members to support or participate in fundraising activities.

The District provides funds for specific educational functions on an equitable basis; therefore, no fundraising effort will be approved that would generate funds for the following categories:

A. Textbooks and supplies (the purchase of)

B. Transportation of students between school and home on a regular basis

C. The purchase or construction of an additional classroom(s)

D. The hiring of licensed, educational support professional or paraprofessional staff

All schools may participate annually in the following fundraisers:

A. Two (2) school fundraisers
   - One fundraiser sponsored by the school
   - One fundraiser sponsored by the by the school and/or PTA. The PTA must submit a Fundraisers Request Form. See Below.
   - Should a compelling financial need arise to conduct an additional fundraiser, approval must be obtained from the principal and the Superintendent or designee.

B. Two (2) charitable fundraisers (activities sponsored by nonprofit – 501C-3 organizations).
   - Charitable fundraising will not be endorsed or sponsored on a District-wide basis.
   - Materials that advertise other charitable fundraising activities may be placed in the school office or other locations to be determined by the school administration.
Money that is collected for a fundraiser needs to be used for its intended purpose within a reasonable amount of time. A group should never raise funds for a charitable cause and then do nothing with the donated money.

District administration will approve fundraisers that meet the guidelines listed below:

A. A needs assessment must be conducted before a fundraiser can be approved in order to determine the amount of funds required and the methods used to raise the funds.

B. All school fundraisers, including PTA/PTSA fundraisers, must be submitted in writing to the School Performance Director for review and approval using the Fundraising Request Form. Refer to the Appendix for a copy of the Fundraising Request Form.

C. The Canyons Education Foundation is responsible to review and approve fundraising permits on behalf of commercial entities used for school fundraising. School personnel and the PTA may only use Foundation approved entities. School personnel may recommend potential commercial entities for review and approval by the Foundation.

D. Students must not be compelled to sell or purchase products or services and must be free to voluntarily participate without peer or group pressure. Care must be taken in awarding bonuses or prizes to individuals or groups so that students do not feel pressured into competitive selling.

E. Students are not to miss class (instructional time) to participate in fundraisers.

F. Charitable fundraising will not be endorsed or sponsored on a District-wide basis. Materials that advertise other charitable fundraising activities may be placed in the school office or other locations to be determined by the school administration.

School Level Fundraising Guidelines
The guidelines for elementary and middle schools vary from the guidelines for high schools. Funds raised in elementary and middle schools are primarily used to support school activities, enhance instruction and for general operational assistance. Elementary and middle school students are restricted by policy from participating in overnight travel.

Subject to approval by the School Performance Director, high school students frequently raise funds for travel expenses, specialized equipment and uniforms. Due to the unique demands for activity program funding at the high school level, high schools are allowed more opportunities to raise funds.
**Elementary and Middle School Guidelines**  
Based on the needs assessment, one fundraiser sponsored by the school and one fundraiser sponsored by the school and/or PTA and two charitable fundraisers will be allowed. These fundraisers must:

A. Be consistent with the generally accepted moral and ethical standards and practices of the Canyons District community.

B. Be approved by the School Performance Director.

C. Not involve door-to-door sales.

A school wide campaign to raise funds through parent and student donations, not involving the sale of a product or service, is considered a fundraiser and must meet all of the applicable fundraising guidelines.

Parent donations to support a specific activity (e.g. fieldtrip) in the school will be accepted and will **not** be considered a fundraiser if the following stipulations are met:

A. Donations must not be solicited but are entirely elective with regards to parent participation.

B. Donations must not be a factor in determining if a student participates in the activity.

C. Donations must be solicited in writing and approved by the school administration.

D. Donations must be accounted for and recorded through the school office.

**High School Guidelines**  
Based on the needs assessment, fundraisers that involve students in the sale of a product or service or the solicitation of a donation will be allowed. These fundraisers must:

A. Be consistent with the generally accepted moral and ethical standards and practices of the Canyons District community.

B. Be approved by the School Performance Director.

C. Not involve door-to-door sales.

**Business Partnerships**  
School-based business partnerships that generate revenue, products or services for the school, based on voluntary participation of students, parents and community members that do not
involve students or the school in the sale of a product or service, are exempt from the level fundraising guidelines.

**Canyons Education Foundation**

A. Fundraiser Partnerships (Foundation-Initiated)

1. The Foundation develops partnerships with organizations for the purpose of raising funds for the schools and the Foundation. A list of these organizations is disseminated to the schools on a regular basis and is available at www.foundation.canyonsdistrict.org. School personnel are required to consider these partnerships to raise funds for the school or school organizations.

2. The Foundation Director shall consult with the Superintendent or designee prior to disseminating fundraising information to schools or departments.

3. All Foundation partnership fundraisers are subject to the level fundraising guidelines.

B. Advertising Partnerships (commercial or nonprofit)

1. The Foundation and the District may not distribute advertisements to students unless there is a direct financial benefit to the District from the sale of the advertised product or service. All requests to distribute advertising to students must be reviewed and approved by the Foundation Director. The Foundation Director will approve requests using criteria that evaluate the reputation of the advertising entity and the potential for revenue to support Foundation activities, among others. The local school administration is responsible to ensure that any advertising to be distributed to students has been approved by the Foundation Director.

2. Advertisements from all other commercial enterprises may be placed in the school office for interested students and parents with the approval of the school administration.

**Other Considerations**

Fundraisers require a considerable amount of time and commitment to ensure they are monitored properly. Proceeds generated through fundraising are considered “public funds” and, therefore, must be handled in accordance with applicable Utah Code and District policy. Ultimately, the school Administrator is responsible for monitoring all aspects of a fundraiser and ensuring that faculty and staff members involved act in accordance with District policy and Utah Code.

Please be aware of the following considerations that are applicable to fundraising:
A. Monies generated through fundraising are subject to the rules outlined in the Cash Handling section of this manual. Please remember that cash and inventory should be kept at the school in a secure area to prevent theft. All fundraising revenue must be deposited every three days in accordance with Utah Code 51-4-2.

B. All items purchased for fundraisers are governed by the CSD purchasing policy. When multiple vendors can supply the goods or services for a fundraiser, competitive bids or written quotes should be utilized. Bids are not required for items purchased for resale to the public.

C. Fundraising inventory should be shipped directly to the school in the Administrator’s name. Each person taking possession of fundraising items to sell, must sign that they have received the fundraising merchandise. They will be responsible for the return of the merchandise and funds received. There needs to be a weekly inventory of all fundraising product. Documentation of the weekly inventory process should be kept at the school with the advisor or coach for yearly financial review.

D. Records must be maintained for all sales. Cash receipts should show the sale date, customer name, dollar amount, person making the sale and the number of items sold. It is recommended that high schools purchase cash registers or Ipad to facilitate the sales of various items at concession stands. In addition, documentation must be maintained by the advisor or individual in charge of the fundraiser detailing the breakdown of each student’s participation - showing how much each student sold, what each student earned and what amount they remitted to the main office.

E. A reconciliation of cash on hand, cash deposited and inventory should be performed periodically to verify all items and cash receipts are accounted for.

F. Funds raised by students for a particular event are not refundable or transferable. For example, funds raised for the drill team will not be refunded to a student should that student drop the class, become ill, etc. If a student has raised funds for the drill team and later drops from the program, those funds raised must stay with the drill team.

G. District employees (including coaches and volunteers) may not use fundraising activities or the proceeds thereof to further their own economic interests or to secure privileges for themselves or others – accepting donations, gifts or incentives is forbidden. Donations and fundraising proceeds must be used specifically and strictly to benefit the students.
Donations
A charitable donation is a gift made by an individual or organization to a public institution (e.g. public school) or nonprofit organization (e.g. the Foundation). Charitable donations are commonly in the form of cash or property (referred to as in-kind donations).

Charitable donations made directly to the District or individual schools are tax-deductible under section 170(c)(1) of the Internal Revenue Code. Charitable donations made to the Foundation are tax-deductible under section 501(c)(3) of the Internal Revenue Code.

Charitable donations designated by the donor to benefit themselves or a specific person are not tax-deductible.

Schools are not required to send locally generated charitable donations to the Foundation unless the donation received is over $500. Funds (including donations) generated by school or booster club fundraisers are exempt from this provision.

Booster Clubs & Parent-Support Groups
The following guidelines represent Canyons School District’s (CSD) policy regarding the organization and operation of booster clubs and parent-support groups.

B. Any group organizing with the intent to promote, raise funds or provide support for any athletic or activity program within a school must submit an annual application to the school’s Administrator using the Annual Booster Club/Parent-Support Group Application Form. Refer to the Appendix for a copy of the Annual Booster Club/Parent-Support Group Application Form. The application form must be filled out by the parent representative and signed by the head coach/advisor, School Administrator and the School Performance Director.

C. It is recommended that parents who are involved in booster clubs or parent-support groups have a child that participates in the organized sport or activity.

D. Any booster club or parent-support group using the school’s name, mascot/logo, associating itself with the school or participating in a school sponsored event (as defined by Utah Administrative Code R277-113-1) shall follow Canyons School District policy pertaining to:
   a. Accounting
   b. Purchasing
   c. Fundraising
   d. Overnight Travel
   e. Drugs and Alcohol
   f. Personnel Evaluation
   g. Other Applicable Policies (as specified by District & School Administration)
E. Booster clubs and parent-support groups must agree that all activities and financial transactions (cash receipts and cash disbursements) require school administration approval. All booster club and parent-support group financial transactions must be monitored and tracked through the school’s general ledger (this includes fundraising of any kind, concessions and other sales).

F. All fundraisers (this includes PTA fundraisers) must be approved by the school’s Administrator and the School Performance Director prior to the fundraising event, program or activity. Concession sales will be subject to sales tax if the fundraising forms are not completed and on file at the school. Refer to the Fundraising section of this manual for additional information.

G. Booster clubs and parent-support groups are never permitted to have a bank account separate from the school’s main checking account.

H. Checks written to the school should never be deposited into personal or non-school bank accounts.

I. Purchases should be made in accordance with school and district policy. All purchases must be approved by the school Administrator. An Internal Purchase Requisition form must be signed by the school’s Administrator before any purchase is made. Goods purchased for resale to the public do not need two bids.

J. Do not spend any funds until an Internal Purchase Requisition form has been signed by the school’s Administrator. Reimbursements will not be made if prior approval was not granted. Internal Purchase Requisition forms are available at the school’s main office.

K. Cash boxes and/or cash registers for fundraising activities are available at the school’s main office. No outside cash boxes or registers are to be used. All money collected and unsold tickets (where applicable) needs to be counted and turned into the main office. If an Administrator or Assistant Administrator is at the location where the fundraising event is held, the cash box or register should be given to him/her at that time. Refer to the Cash Box Section in this manual for additional information. Parents should never take home fundraising money, cash boxes, raffle tickets, etc.

L. All cash receipt source documents must be retained by the School. This includes all cash register Z-tapes and any other type of accounting the teacher or advisor uses to determine what was sold, how much was sold and identifies the seller.

M. Cash receipts must be submitted to the main office on a daily basis. Students are to submit fundraising proceeds to the main office - not to a parent. When turning
money into the main office, count the money and have an accounting of the deposited amount. Count checks and cash separately. All coins should be rolled.

N. Student clothing and equipment is exempt from sales tax if every participant in the program is required to have the clothing. Student clothing and equipment will be waived for those students who qualify for a fee waiver. Spirit clothing is usually not required for participation in an activity and, therefore, is subject to sales tax.

O. Fundraising proceeds should not be used to purchase spirit clothing for booster parents.

P. The School’s name and mascot should never be used in conjunction with any non-school related program. Two examples of non-school related programs are off-season sports and summer sports.

Q. Coaches, advisors, booster clubs and parent-support groups should never use school funds or fundraising proceeds to operate non-school sponsored athletic programs such as private summer or off-season camps/clinics. If a camp, clinic or other event falls within the definition of “school sponsored” then the event shall not be considered “private” and shall comply with any and all applicable Canyons School District policy and Utah Code. Refer to the Camps & Clinics section of this manual for additional information.
**CAMPS & CLINICS (HIGH SCHOOLS)**

**Guidelines**

*(At the time of printing this manual, procedures for Camps & Clinics was under review. Form B and collection of participation fees has been replaced by Simpliform through RevTrak. Additional changes are expected. Until further notice, please continue to use the instructions in this manual.)*

If a camp, clinic or other event falls within the definition of “school sponsored” then the event shall not be considered “private” and shall comply with any and all applicable Canyons School District policy and Utah Code.

A. “School sponsored” means any activity, fundraising event, club, camp, clinic or other event or activity that is authorized by the District or school which supports the District or school club, activity, sport, class or program, that also satisfies at least one of the following conditions:
   a. It is managed or supervised by the District or school, or District or school employee;

   b. It uses the District or school’s facilities, equipment, or other school resources; or

   c. It is supported or subsidized by public funds including the public school’s activity funds or minimum school program dollars.

Camps and clinics that fall within the definition of “school sponsored” **must** be approved by the school Administrator and School Performance Director in writing **prior** to its commencement. **To obtain prior written approval, CSD Camps and Clinics – Form A must be completely filled out and submitted in writing to the individuals listed above.** A copy of the approved Form A must be filed with the District’s Risk Management Coordinator.

Refer to the Appendix for an example of the Form A and Form B (Form B is only for reference and preparation of the Simpliform) of the CSD Camps and Clinics Form as well as the specific guidelines developed by the School Performance Director’s office. **Do not** use the form included in the appendix as it may be outdated because salary and benefit rates change annually. **Please contact the School Performance Director’s office to obtain the most current version of the Camps/Clinics Form.**

Ten (10) percent of the gross revenues collected from the camp or clinic must be paid to the District to cover facility use.
Payments to coaches and other employees rendering services at these events will be capped at the employee’s hourly rate.

An administrative stipend may also be paid to the coach or event director for the planning, supervision and organization of the camp or clinic. The amount of the stipend for any one event and/or combination of events during a school year may not exceed the value of the coaching differential paid for that school year.

All payments made to employees in relation to these events will be made through the Accounting Department using a timesheet. Non-employee staff members working an event will be treated as independent contractors and receive a predetermined stipend. The school must obtain a completed Form W-9 from the independent contractors and pay them in accordance with the rules outlined in the W-9 Payments section of this manual. Refer to the appendix for a copy of Form W-9.

If the event does not earn enough revenue to cover all of its expenses (i.e. 10% payment to the District, payroll, stipends and W-9 payments) it will be cancelled, unless the staff agrees to be paid a prorated amount.

Camp Registration, Consent/Waiver, Collection of Participation Fees (Simpliform)

Once Form A has been approved, the camp registration, consent/waiver of liability and collection of participation fees will handled via Simpliform through RevTrak.

Setting Up a Simpliform with RevTrak

General Guidelines

When requesting a Simpliform for a camp, if there are multiple camps, a form is required for each camp. For example, Corner Canyon hosted a Youth Soccer Camp. The camp was for Grades 6 – 9 and Grades K-5. Two Word docs were submitted, one for each camp.

1. To have a Simpliform created, a word document form (see Appendix) must be filled out which contains pertinent information on the camp or clinic.
2. RevTrak will create a live link that can be inserted on the school’s web page.
3. For each Simpliform requested, you will receive an excel file. Because it is an excel file, you can sort the data to your needs. The excel spreadsheet received from RevTrak also contains the Form B electronic signatures. The parents are required to electronically sign the Consent/ Waiver of Liability before paying.

Steps to Setting up a Simpliform
1. Obtain all the signatures and approvals from school and District administration for Form A. See Appendix for Form A.

2. Complete the Word document form (see Appendix) with all the Camp information.
   Note: Create a master copy of the form and update information for the different camps.
   Include the following:
   - camp information such as the school name, organization, dates/times, grade/age, location, cost per participant and email address for camp administrator
   - parent and student information
   - shirt size (if a shirt is offered as part of the camp)
   - consent/waiver information which includes the name of the school and the organization on the form
   - skyward account number
   - list of email addresses for the daily RevTrak reports
   - note to RevTrak that the live link is to be emailed only and should not be setup on the District web store
   - start and end dates for the live link

3. Submit the form to EZHelp@RevTrak.com

4. Upon RevTrak completion of creating the form, you will receive an email from EZHelp@RevTrak.com letting you know the camp form is ready for review and approval. If there are changes, respond to the email with requested changes.

5. After approving the Simpliform, you will receive another email from EZHelp@RevTrak.com letting you know the form is now live with the direct link to the item(s).

6. Forward the link to the camp coordinator to include in their brochure or web page.

**Skyward**

Finances for camps and clinics must be tracked separately from the normal transactions of the team/club.

The programs available for camps and clinics are listed in the table below. Be aware that the program names have not been changed in Skyward because approximately ten elementary schools are currently using these programs for other items. Each secondary school will need to change the “account level description” within their Skyward chart of accounts to reflect the camps and clinics reflected in the table below.

<table>
<thead>
<tr>
<th>Program #</th>
<th>Program Name</th>
<th>“Account Level Description” Name</th>
</tr>
</thead>
<tbody>
<tr>

DISTRICT REIMBURSEMENT

NPO Requisitions
When submitting NPO’s for payment, they shall comply with the following guidelines:

1. The correct name of the vendor or person to be paid. Do not use nicknames or abbreviations.

2. The correct account number to be charged.

3. The appropriate approval. Please note that employees seeking reimbursement for purchases must have their supervisor sign the NPO.

4. The original invoice or detailed sales receipt must be attached. Please include an extra copy of the invoice to be paid because one copy is sent with the check and the other copy is retained as backup documentation.

5. Internet purchases will require an invoice and a packing slip before the NPO will be paid.

6. If the invoice is smaller than 8.5 inches by 11 inches, please tape it to a blank sheet of copy paper.

7. NPO’s should be submitted for reimbursement monthly. Do not wait until year-end to submit the entire year’s reimbursement. Elementary Schools that have a low volume of activity in their District Reimbursement account may submit their NPO’s for reimbursement on a quarterly basis.

8. If a new vendor is being paid, a completed form W-9 must be attached to the reimbursement request.

9. Reimbursement requests from schools must have the school’s check number listed somewhere on the NPO.

Failing to comply with the above guidelines will delay the processing of the NPO. The Accounting Department will return the NPO to the sender if the original source documentation and appropriate authorization is omitted.

NPO’s are designed for reimbursement of the following:

1. Purchases less than $1,000 (with original receipts attached) for both equipment and supplies.

2. Repairs that total less than $1,000.
3. Travel, including hotel, conference registration, per diem and airfare. Original documentation and a copy of the signed travel authorization form should be attached to the NPO.

4. Subscriptions

5. Professional dues

6. Registrations

**Mileage**

Mileage should be submitted using one of the following methods:

1. The **Mileage Report Worksheet** which is found on the Canyons School District website under Accounting Department/Accounting Forms. This is a Microsoft Excel worksheet that calculates mileage when beginning and ending odometer readings and dates are entered.

2. The **Online Mileage Tracker** which is found on the Canyons School District website under Resources/Info for Employees/Mileage Tracker. This is an online form that calculates mileage when the beginning and ending odometer readings and dates are entered as well as pre-calculated mileage between the district offices and school sites.

**Mileage Guidelines**

A. Per IRS regulations, odometer readings **must** be used. There are two exceptions to this:

   1. If you take the same trip regularly, you just have to put in the odometer readings on the first trip to document the mileage driven. For example, if you go to the bank daily to make a deposit, enter the odometer readings for the first trip. All subsequent trips to the bank will have the same number of miles without having to enter the odometer readings for each daily trip, or

   2. The district has calculated the actual mileage to/from District offices which are posted on the District website under Accounting (Mileage from District Offices Form). Because this mileage has been previously calculated, you may enter the number of miles without having to the odometer readings.

B. Only the district approved Mileage Reimbursement Request Forms (Excel and Online versions) will be accepted. The Request Form must be properly and completely filled out and signed by the employee and employee’s supervisor. Incorrectly completed Mileage Reimbursement Forms will be returned for correction.
C. Mileage accumulated for legitimate business purposes, in excess of the number of miles to and from home is eligible for reimbursement.

1. Example:
Normal Workplace: Corner Canyon High
Miles from Home to CSSC to CCHS 16
Miles from Home to CCHS (one way) 5
Number of reimbursable miles 11

2. Example:
Normal Workplace: Corner Canyon High
Miles from Home to CSSC to USOE to Home 45
Miles from Home to CCHS & back Home (round trip) 8
Number of reimbursable miles 37

D. Employees eligible for district-paid mileage reimbursement include professional central office staff, Administrators, Assistant Administrators and staff whose assignments are itinerant in nature. School secretaries directed by Administrators to travel in order to conduct district or school business may receive mileage reimbursement through their school checking account.

E. If a total day’s miles traveled are less than the number of miles from home to the normal workplace, there is no reimbursement for mileage.

F. If multiple destinations are made in one trip, list each destination. For example, if you drive from your high school to the CSSC then to another secondary school, mileage must be calculated using an odometer reading or the Mileage Form District Offices Form.

G. Reimbursement is not paid for miles to and from home.

H. Reimbursement is not paid for miles accrued to conduct personal business.

I. Employees who are paid a stipend to attend a conference should not claim mileage for reimbursement.

J. Mileage Reimbursement Request Forms should be submitted on a quarterly basis unless the mileage is significant, in which case, a monthly basis is acceptable. Please avoid submitting reimbursements for amounts under $20 unless it is the end of the fiscal year.
**Record Retention**

The following is a list of accounting records and the length of time they must be retained by the schools. After the stated time, the records may be securely destroyed (shred/burn):

<table>

</tbody>
</table>

Refer to Canyons School District Policy 300.2-1 for information on retaining nonfinancial student records. Additional information on financial and nonfinancial school records retention can be found at the Utah State Archives website, www.archives.state.ut.us.

Employees are reminded that District and School financial and nonfinancial records that are confidential in nature should never be disclosed or discussed with unauthorized individuals or removed from the District or School location.
TRAVEL

The Purchasing Department is responsible for all Student and Adult Travel. Please go to the District’s website at www.canyonsdistrict.org, select Departments, select Purchasing, select the Travel section for the most current versions of required travel forms. Please refer to Canyons School District Policy-500.23 - Student Travel, 500.24 - Student Overnight Travel, 500.25 - Field Trips, and 400.213 – Professional Development Conferences (Adult Travel).

The Purchasing Department’s website will have forms for all of the following travel categories:

**Student Travel**
- Advisor Trip Checklist
- Medical Information & Parent Consent Form
- Responsible Adult Information
- Student Group Travel Quotes
- Student Overnight Travel Request
- Student Travel Insurance Request
- Travel Quote Approval

**Adult Travel**
- Conference Travel Expense Authorization Form
- Employee travel Agreement
- Local Conference Request
- Travel Request Form
UNCLAIMED PROPERTY

The Utah Unclaimed Property Act (Section 67-67-4a) requires that a holder report to the State Treasurer property which is presumed to be abandoned or unclaimed after the stated dormancy period. For schools, unclaimed property is usually un-cashed checks.

All school checks that are outstanding as of June 30 of the previous year are considered unclaimed property. All unclaimed property reports and money (if you have any unclaimed property) should be received by the Accounting Department NO later than September 30. The Accounting Department will then submit to the State Treasurer’s Office the entire District’s unclaimed property by the November 1 annual deadline.

Unclaimed Property Guidelines

A. Throughout the year, notify the payee in writing that the check has never been cashed. Refer to the Appendix for a template that should be used for Unclaimed Property Letters.

B. If the payee’s response is that the check was never received, void the check and reissue a new check.

C. If no response is received from the payee, remove the check from the Outstanding Check List by voiding the check. When a check is voided, cash is increased and the program expense account is decreased. Pay close attention to the program expense that is decreased when checks are voided. You will use these program numbers when you issue a check to the District for unclaimed property.

D. Once all unclaimed property has been identified, send a check for the total to the Accounting Department with a list of all un-cashed checks. The various program expenses that were decreased in “C” above will be used when coding the unclaimed property check.

E. The list of all un-cashed checks will include the payee, payee address, check number, check date and check amount. Refer to the Appendix for a copy of the Report of Unclaimed Property. If a school does not have unclaimed property to report, please write “NONE” on the report and submit it to the Accounting Department.

Schools may not simply write off a check and add the money back into the school accounts just because it was never cashed. It is illegal. If an outstanding check should legitimately be voided, then documentation must be made as to why the check was voided.
UTAH SALES TAX

Tax Exempt Purchases
Use of the name or address of Canyons School District and/or its sales tax exempt status for making personal purchases is expressly forbidden.

The procedures associated with governmental agencies making tax exempt purchases are as follows:

A. All purchases must have a school or District purchase order, check or voucher as evidence that the purchase is made by a government agency.

B. An Exemption Certificate for Government & Schools (form TC-721G) must be completed and submitted to the vendor (if one is not already on file with that specific vendor). The box claiming exemption for public elementary and secondary schools must be checked and the tax ID number for the school or District must be entered in the space available. This form must be used for all tax exempt purchases and must be signed by the department director, Administrator or other authorized individual. Refer to the Appendix for a blank copy of form TC-721G.

1. Elementary and Middle Schools are to use the Canyons School District sale tax ID number 12389689-002-STC when submitting Form TC-721G.

2. High schools are required to obtain and use their own sales tax ID number on form TC-721G.

Sales Tax Collection

Tax Rate
The sales tax rate is based on the location of place of business in Utah where the merchandise or service is sold (point-of-sale). The current statewide sales tax rate is combined with any additional local sales taxes imposed by cities and counties. Therefore, the sales tax rate may vary from one community to the next. If you have a question about the tax rate for your location, consult the Utah State Tax Commission website (www.tax.utah.gov).

Sales Tax License
All schools that are required to collect sales tax must have a sales tax license issued by the Utah State Tax Commission. Each school engaging in taxable sales should obtain its own license.

Applications for sales tax licenses are available online at www.tax.utah.gov. When completing an application be sure to include the proper name of the school and the name of a contact person who will be responsible for filing sales tax returns.
Once a license has been issued, preprinted returns will be mailed approximately four weeks before the return is due. However, if returns are not received the school is still responsible for obtaining blank returns and filing by the due date. Returns are required to be filed timely even if no tax is due for the period.

**Filing Requirements**
Filing periods are determined by the Utah State Tax Commission. If you are unsure of your filing period please contact the Utah State Tax Commission.

A tax return must be filed whether or not tax is due for a particular period. Tax records are subject to audit by the Utah State Tax Commission.

**Penalties and Interest**
Penalties and interest for failing to file or failing to pay are defined in Publication 58 which is available at http://tax.utah.gov.

**What’s Taxable and What’s Not?**
Publication 35 which is titled, “Sales Tax Information for Public and Private Elementary and Secondary Schools” provides a list of taxable and nontaxable sales at schools. Publication 35 is included in the Appendix for your reference, but it is recommended that you obtain the most current version of Publication 35 by visiting http://tax.utah.gov.
W-9'S, JOURNAL ENTRIES, BUDGET TRANSFERS, GRANTS

W-9's
Schools and departments are assigned the responsibility of obtaining a completed W-9 Form for every new vendor. Payment should never be made unless a completed Form W-9 has been received.

Individual workers are either classified as either employees or independent contractors. An individual classified as an independent contractor must complete a W-9. If payments to this individual (district-wide) reach $600 then that money must be reported to the IRS.

The recipient of the W-9 should verify that the form is completely filled out, signed and dated. A Taxpayer Identification Number (TIN) is required. A TIN can be either a Social Security Number (SSN) or an Employer Identification Number (EIN). If the school is issuing a check to a company, then the W-9 should have an EIN number on it. If the W-9 form has a SSN as the TIN then the “Name” on the form must be an individual name and not a company name.

Schools should never pay employees with a school check. An individual classified as an employee must be paid through the District Payroll Department. Schools should never hire someone as an employee without first going through the District Human Resource Department.

Refer to the Appendix for a copy of Form W-9.

Journal Entries
The easiest way to transfer actual funds from one account to another is through a journal entry. Journal entries can be confusing so extra care and attention should be given to providing a thorough and complete description of the reason for and the desired outcome of the journal entry. The Administrator of the account being debited must approve the journal entry before Accounting will process it. Checks and deposits are still necessary when transferring funds between a school checking account and the district’s checking account. Refer to the Appendix for a copy of the Journal Entry Request Form – used only when transferring money from one district program to another district program.

Budget Transfers
The easiest way to transfer budgeted funds from one account to another is through a budget transfer. The Administrator of the accounts affected must approve the budget transfer before the Accounting Department will process it. Refer to the Appendix for a copy of the Budget Transfer Request Form.
Grants

Compliance
It is the responsibility of the program administrator/director to ensure proper compliance with the requirements applicable to the grants they manage. This includes, but is not limited to, state and federal regulations and requirements as well as Super Circular – Subpart E-Cost Principles.

State & Federal Grant Reimbursements
All state and federal grant reimbursements must be prepared by the Accounting Department. The appropriate indirect costs will be added to all grants.

Fiscal Agent Agreements
Fiscal agent relationships should not be agreed to unless both the Deputy Superintendent for Business Services (CFO) and the Director of Accounting approve.

Fiscal agent arrangements typically occur when other entities ask the District to administer a grant that is not the District’s grant. For example, the USOE has funds with which they either do not want to administer or cannot administer so they ask the District to oversee its use by other Districts or entities. In essence, the District acts as the middle manager. Such arrangements are costly to the District with very little, if any, benefit.
FIXED ASSETS & CAPITAL IMPROVEMENTS

Fixed Assets
Fixed asset inventory and tracking systems are an essential part of maintaining control of an organization’s assets. It documents ownership and helps provide accountability for the public funds that have been entrusted to the Canyons School District. The District’s fixed asset system is used to comply with State requirements, monitor and safeguard District assets, provide proof of loss from vandalism and maintain detailed records of all assets in case of a catastrophic event.

All fixed assets, as defined below, must be tagged and tracked by the school’s Fixed Asset Coordinator or by the District Fixed Asset Coordinator. **School or District equipment is not to be used for personal use and should not leave school grounds.** The exceptions to the previous statement would be laptop computers, tablets, cameras and cellphones. These items may be removed temporarily from the school/district location to complete work related assignments with approval of the employee’s immediate supervisor. Each school should complete an inventory count to verify fixed assets at least annually.

All fixed assets over $2,000 and items defined as “walkables” will be tracked by the school or department and the Fixed Asset Coordinator. A “walkable” is defined as a piece of electronic equipment, or a musical instrument, costing between $500-$2,000 that can be easily removed from a building.

**Contact the District Fixed Assed Coordinator for specifics on fixed asset purchasing guidelines, tagging procedures, equipment transfers, lost or stolen equipment, equipment disposal and surplus equipment**

Under no circumstances should surplus equipment be disposed of or scrapped for the monetary benefit of an individual or group of individuals. Neither should these assets be given away, discarded or destroyed. All School and District property must be disposed of through surplus procedures established by the Purchasing Department.

Capital Improvements
All capital improvements shall be coordinated by the Facilities Department to ensure all applicable purchasing policies are followed and work is completed by licensed and bonded contractors.
LEGISLATIVE CLASSROOM SUPPLY FUNDS

Canyons School District will provide teacher legislative supply funds using a VISA Debit Card (called Teacher Supply Card). Each card may only be used by the person named on the card for allowable expenses.

Jordan Credit Union has partnered with the district to facilitate this program. The Accounting Department will coordinate with JCU in determining who will be issued cards. Cards will not be issued until the cardholder has signed the Cardholder Agreement Form. All Cardholder Agreement Forms will be kept for two years at the site of the issuing school or department.

Each cardholder is responsible for:

- Activating their own card
- Ensuring that purchases made are for allowable teaching supplies and materials
- Understanding the consequences of card misuse
- Tracking all expenses and credits
- Accidental purchases
- Monitoring card balances
- Monthly printing of the History Report for those months when purchases were made
- Reporting lost/stolen cards

Activating the Card

Each cardholder is responsible for activating their own card. To do so, they should follow the instructions provided with the card.

Using the Card

Acceptable Use Guidelines – Each recipient is required to ensure that purchases made using these Legislative Supply Funds are for allowable teaching supplies and materials as defined by the Administrative Rule as follows:

- “Field trip”, which means a district, or school authorized excursion for educational purposes.
- "Teaching supplies and materials", which means both expendable and nonexpendable items that are used for educational purposes by teachers in classroom activities and may include such items as:
  - paper, pencils, workbooks, notebooks, supplementary books and resources;
  - laboratory supplies, e.g. photography materials, chemicals, paints, bulbs, thread, needles, bobbins, wood, glue, sandpaper, nails and automobile parts;
  - laminating supplies, chart paper, art supplies, and mounting or framing materials.
Note that “Teaching supplies and materials” should be broadly construed in so far as the materials are used by the teacher for instructional purposes or to protect the health of teachers in instructional or lab settings, or in conjunction with field trips.

It is recommended that cardholders utilize district and state contracts. These contracts are available on the District’s Purchasing Department webpage.

**Unacceptable Use Guidelines** – Legislative Supply Funds may not be used for any purchase that does not meet the spirit of the Rule, would be considered an inappropriate use of public funds by a reasonable person, or for which the District does not receive direct benefit. Specific examples would include but not be limited to:

- Personal items or services for self or family such as:
  - phone/internet/fax service
  - meals, food, and beverages
  - alcohol and other controlled substances
  - entertainment
- Travel expenses such as:
  - airfare
  - lodging
  - rental cars
  - tolls
  - parking
  - gasoline
- Registration fees
- Membership or certification fees
- Cash advances
- Gifts (including gift cards)
- Furniture
- Postage

**Consequence of Card Misuse**
Misuse of Legislative Supply Funds, or any public funds, will result in:

- The cardholder reimbursing the district for the misused funds
- The cardholder’s remaining balance of Legislative Supply Funds being forfeited
- The Principal considering corrective discipline up to and including termination.

**Tracking Individual Expenses/Credits**
As individual purchases are made, each cardholder is required to obtain and keep an original receipt that shows the detail of what was purchased or credited back to the card. The original
receipts and the Monthly History/Activity Report are required to be submitted to the school’s Financial Secretary every month. Refer to Monthly Requirements section for additional explanation.

Accidental Purchases
In the event a cardholder accidentally uses their Legislative Supply Card for a purchase when they intended to use a different source of funds, they are responsible to contact the vendor, rectify the charge, and obtain a credit on the Legislative Supply Card immediately. It is not acceptable to receive cash or gift card in lieu of a credit. If a personal purchase is accidentally made the cardholder should go to the closet JCU and pay back the funds to the card.

Monitoring Card Balances
Each cardholder is responsible to monitor the balance left on their own card. To do so, they may login into the JCU website or use the JCU app for their mobile devise. Please refer to the JCU login procedures on the instruction sheet by JCU in your packet.

Monthly Requirements
Cardholder Responsibilities – At the end of each month during which a cardholder makes a purchase, the cardholder is required to:

• Print their individual History Report for the prior month from the JCU website. ([www.jordan-cu.org](http://www.jordan-cu.org))
• Neatly attach the original detailed receipt, in chronological order, to the log. If a receipt is longer than the Monthly Activity Report neatly fold the receipt, do not cut the bottom off of a receipt to make it fit. For small receipts please attach to a piece of scratch paper.
• Resolve any accidental purchase prior to turning in the log and receipts.
• Turn in the log and receipts to the Financial Secretary by the 5th of the next month.

Financial Secretary Responsibilities – At the end of each month, the Financial Secretary should do the following:

• Ensure each cardholder who had activity during the month turns in their Monthly Activity Report and attached receipts by the 5th.
• Review each Monthly Activity Report for the following:
  • Using the JCU web interface, reconcile the Monthly Activity Report and receipts with actual activity showing on the system.
    ▪ In the case of missing receipts, or the presence of sales tax notify the cardholder who is responsible for rectifying within seven (7) days.
  • Unacceptable use or policy violations
    ▪ In the case of unacceptable use, notify the Principal immediately.
  • File the Monthly Activity Report and attached receipts using a system that allows for audit.
- Report staff changes to the district.
  - If a teacher terminates:
    - Obtain their card.
    - Obtain their final Monthly Activity Report and receipts.
    - Remit card to the Accounting Department.
  - If a teacher transfers to another school in the district:
    - Obtain their final Monthly Activity Report and receipts for purchases while at your location.
    - Notify the Accounting Department of the transfer so JCU can move the teacher to their new location.
    - The remaining teacher’s money will be transferred to their new location.
  - If a new teacher comes to the school and does not have a card:
    - Notify the Accounting Department and they will make a determination of eligibility.

**Principal Responsibilities**

Upon being notified by the Financial Secretary of a cardholder’s apparent unacceptable use or policy violation, the Principal is responsible to talk with the cardholder to determine if indeed there was misuse or policy violations. If there was unacceptable use or a policy violation, direct the cardholder to immediately rectify the matter. In the case of misuse of funds, the cardholder must reimburse the district and turn in their card effectively forfeiting their remaining balance and the fiscal administrator should consider corrective discipline.

**End of School Year**

Legislative Supply Funds will be available to be spent up until 4/30, the cards will become inactive after this date. The April Monthly Activity Reports and receipts will be the final ones for the year and are due to the Financial Secretary by 5/5.

Once the Financial Secretary collects all cards by 5/5 they are to be destroyed (shredded) because new ones will be issued for the next school year.

Retain the Monthly Activity Logs and attached receipts at the school or department and have them accessible for audit for 4 years.

**Problems**

The Teacher Supply Card is district property. Cardholders should secure their card just as they would secure their personal credit cards. If a card is lost or stolen, the cardholder is responsible to:

- Notify Jordan Credit Union immediately by calling 801-566-4195 (during business hours M-F 8AM - 6PM) or 800-682-6075 (outside of business hours or on bank holidays) or
reportmycards.com. Upon receipt of your call, further use of the original card will be blocked.

- Contact the Financial Secretary who will contact Accounting to order a new card for the teacher

Cardholders are to monitor their account for fraudulent activity. If fraudulent activity is identified, the cardholder:

- Is responsible to notify Jordan Credit Union immediately by calling 801-566-4195 (during business hours M-F 8 AM-6 PM) or 800-682-6075 (outside of business hours or on bank holidays).
- Should identify any fraudulent activity as such by noting it on their Monthly Activity Report.
- Contact the Financial Secretary who will contact Accounting to order a new card for the teacher.

Month-end Worksheet

Date Reporting: First day of the month: _______________________

Last day of the month: _______________________

From the Reconciliation report, label columns as follows:
1. Cash declared total
2. Checks declared total
3. Cash expected total
4. Checks expected total
5. Short/Over total

Month-end balancing formula: ( 1 ) + ( 2 ) = ( 6 )

1. __________________
2. __________________
6. __________________ You must make the check out for this amount.

To balance amount declared with amount expected use the following formula: ( 3 ) + ( 4 ) + or - ( 5 ) = ( 6 )

Month-end Total

3. __________________
4. __________________
5. __________________
6. __________________

The total amount on line ( 6 ), in both formulas, should be exactly the same. Do NOT debit refunds, they have already been accounted for in the cash declared. If for any reason, the amount on line ( 6 ) in both formulas does not match, you must make out the check for the total amount declared, ( 1 ) plus ( 2 ). If you have any questions please call.

INFORMED CONSENT/WAIVER OF LIABILITY

1. **RELEASE AND INDEMNIFICATION:** I hereby recognize and acknowledge that my/my child’s participation in recreational activities may involve bodily and/or emotional injury to myself and/or my child. In consideration of my/my child’s participation in such events, I, for myself, my child, my heirs, my executors and administrators, I hereby voluntarily and knowingly indemnify and hold harmless, defend, release, waive and discharge Canyons School District, _________________________ and its officers and employees and volunteers from any and all suits, claims, liability, including negligence, based on any injury except those caused solely by the willful misconduct of Canyons School District employees. In addition, I agree that I or my insurance company will pay for medical, hospitalization or any other expenses resulting from my/my child’s participation.

2. **REFUND POLICY:** Canyons School District may withhold 25% of the refund (program registration fee) for administrative costs. All refunds must requested in person, accompanied with a written refund request. No refund shall be given after the first day of the program.

3. **COLLECTIONS:** I agree to pay Canyons School District all costs incurred, together with reasonable attorney’s fees in the event that my account is referred for collection.

4. **EMERGENCY TREATMENT:** I hereby authorize Canyons School District, _________________________ and _________________________ staff to act on my behalf in accordance with their best judgment in case of an emergency involving me/my child, and agree to assume full responsibility for all expenses, medical or otherwise, that may arise therefrom.

5. **EQUAL OPPORTUNITY:** Canyons School District provides equal opportunity to participate regardless of race, creed, gender, and will, upon request, provide reasonable accommodations to individuals and disabilities.

By signing this assumption of risk, liability release, indemnification and refund policy statement, I acknowledge that I have read it contents disclosure, that I understand its contents and disclosure, and that I agree to its terms.

Page 14
Booster Clubs & Parent-Support Groups

The following guidelines represent Canyons School District’s (CSD) policy regarding the organization and operation of booster clubs and parent-support groups.

A. Any group organizing with the intent to promote, raise funds or provide support for any athletic or activity program within a school must submit an annual application to the school’s Administrator and the District Athletic Compliance Director (if related to a school athletic program) using the Annual Booster Club/Parent-Support Group Application Form. Refer to the Appendix for a copy of the Annual Booster Club/Parent-Support Group Application Form.

B. It is recommended that parents who are involved in booster clubs or parent-support groups have a child that participates in the organized sport or activity.

C. Any booster club or parent-support group using the school’s name, mascot/logo, associating itself with the school or participating in a school sponsored event (as defined by Utah Administrative Code R277-113-1) shall follow Canyons School District policy pertaining to:
   a. Accounting
   b. Purchasing
   c. Fundraising
   d. Overnight Travel
   e. Drugs and Alcohol
   f. Personnel Evaluation
   g. Other Applicable Policies (as specified by District & School Administration)

D. Booster clubs and parent-support groups must agree that all activities and financial transactions (cash receipts and cash disbursements) require school administration approval. All booster club and parent-support group financial transactions must be monitored and tracked through the school’s general ledger (this includes fundraising of any kind, concessions and other sales).

E. All fundraisers must be approved by the school’s Administrator, the School Performance Director and the District Athletic Compliance Director (if applicable) prior to the fundraising event, program or activity. Concession sales will be subject to sales tax if the fundraising forms are not completed and on file at the school. Refer to the Fundraising section of this manual for additional information.

F. Booster clubs and parent-support groups are not permitted to have a bank account separate from the school’s main checking account.

G. Checks written to the school should never be deposited into personal or non-school bank accounts.

H. Purchases should be made in accordance with school and district policy. All purchases must be approved by the school Administrator. An Internal Purchase Requisition form must be signed by the school’s Administrator before any purchase is made.

I. Do not spend any funds until an Internal Purchase Requisition form has been signed by the school’s Administrator. Reimbursements will not be made if prior approval was not granted. Internal Purchase Requisition forms are available at the school’s main office.

J. Cash boxes and/or cash registers for fundraising activities are available at the school’s main office. No outside cash boxes or registers are to be used. All monies collected needs to be counted and turned into the main office. If an Administrator or Assistant Administrator is at the location where the fundraising event is held, the cash box or register should be given to him/her at that time. Refer to the Cash Box Section in this manual for additional information.

K. Cash receipts must be submitted to the main office on a daily basis. Students are encouraged to submit fundraising proceeds to the main office, not to parents. When turning money into the main office, count the money and have an accounting of the deposited amount. Count checks and cash separately. All coins should be rolled.

L. Student clothing and equipment is exempt from sales tax if every participant in the program is required to have the clothing. Student clothing and equipment will be waived for those students who qualify for a fee waiver. Spirit clothing is usually not required for participation in an activity and, therefore, is subject to sales tax.

M. Fundraising proceeds should not be used to purchase spirit clothing for booster parents.

N. Coaches, advisors, booster clubs and parent-support groups should never use school funds or fundraising proceeds to operate non-school sponsored athletic programs such as private summer or off-season camps/clinics. If a camp, clinic or other event falls within the definition of “school sponsored” then the event shall not be considered “private” and shall comply with any and all applicable Canyons School District policy and Utah Code. Refer to the Camps & Clinics section of this manual for additional information.

Dear John,  

Our records indicate that check ______ was issued to you in the amount of $XX.XX on Month, Day 20xx. Our records indicate that this check has never been cashed. Please research your records and initial the appropriate option below:

_______ The check was received and deposited into our account.

_______ Our records do not indicate receipt of this check. We believe the amount is still owed. Please void the original check and reissue a new one. The replacement check will be deposited immediately. We understand that if we later find the original check and attempt to deposit it, the check will not be honored and we will be responsible for all subsequent resulting fees.

_______ We have the original check in our possession and for whatever reason, failed to deposit it. Enclosed is the old check; please reissue a new one.

_______ Please redirect the amount of the check to Canyons School District as a DONATION. In accordance with the Unclaimed Property laws of the State of Utah, we have signed here indicating that this is our desire;________________________. Please enclose the old check if it is still in your possession.

_______ The check was an error and should not have been issued.

For your convenience we have enclosed an addressed return envelope. If you have any questions please call me at 801-826-xxxx or email me at ____________@canyonsdistrict.org.

Respectfully,

The person signing this certificate MUST check the applicable box showing the basis for which the exemption is being claimed.

Email questions to taxmaster@utah.gov. You may also write or visit the Tax Commission at 210 N 1950 W, Salt Lake City, UT 84134, or call 801-297-2200 or toll free 1-800-662-4335.

**DO NOT SEND THIS CERTIFICATE TO THE TAX COMMISSION**
Keep it with your records in case of an audit.

- **UNITED STATES GOVERNMENT OR NATIVE AMERICAN TRIBE**
  I certify the tangible personal property or services purchased are to be paid directly with funds from the entity noted on this form and will be used in the exercise of essential governmental or tribal functions.
  
  **NOTE:** Includes sales of tangible personal property to federally chartered credit unions. “Directly” does not include per diem, entity advances, or government reimbursements for employee credit card purchases.

- **CONSTRUCTION MATERIALS PURCHASED FOR SCHOOLS OR PUBLIC TRANSIT DISTRICTS**
  I certify the construction materials purchased are on behalf of a public elementary or secondary school, or public transit district. I further certify the purchased construction materials will be installed or converted into real property owned by the school or public transit district.
  
  Name of school or public transit district: _______________________________________________________
  
  Name of project: _______________________________________________________

- **FOREIGN DIPLOMAT**
  I certify the purchases are authorized by a diplomatic tax exemption card issued by the United States.

- **UTAH LOCAL GOVERNMENTS AND PUBLIC ELEMENTARY AND SECONDARY SCHOOLS**
  Sales Tax License No. ____________________________
  
  I certify the tangible personal property or services purchased are to be paid directly with funds from the entity noted on this form and will be used in the exercise of that entity’s essential functions. For construction materials, if the purchaser is a Utah local government, these construction materials will be installed or converted into real property by employees of this government entity.
  
  **CAUTION:** This exemption does not apply to government or educational entities of other states and is not valid for lodging-related purchases.

- **UTAH STATE GOVERNMENT**
  Sales Tax License No. ____________________________
  
  I certify the tangible personal property or services purchased are to be paid directly with funds from the entity noted on this form and will be used in the exercise of its essential functions. For construction materials, they will be installed or converted into real property by employees of this government entity.
  
  **CAUTION:** This exemption does not apply to other states and is not valid for lodging-related purchases.

- **HEBER VALLEY HISTORIC RAILROAD**
  I certify these purchases and sales are by the Heber Valley Historic Railroad Authority or its operators and are related to the operation and maintenance of the Heber Valley Historic Railroad.

To be valid this certificate must be filled in completely, including a check mark in the proper box.

**A sales tax license number is required only where indicated.**

Please sign, date and, if applicable, include your license or exemption number.

**NOTE TO SELLER:** Keep this certificate on file since it must be available for audit review.

**NOTE TO PURCHASER:** Keep a copy of this certificate for your records. You must notify the seller of cancellation, modification, or limitation of the exemption you have claimed.

If you need an accommodation under the Americans with Disabilities Act, email taxada@utah.gov, or call 801-297-3811 or TDD 801-297-2020. Please allow three working days for a response.
Sales Tax Information for Public and Private Elementary and Secondary Schools

Utah State Tax Commission
210 North 1950 West
Salt Lake City, Utah 84134
(801) 297-2200
1-800-662-4335

Introduction
This publication provides tax information relating to public and private elementary and secondary schools. General sales and use tax information is available in Publication 25.

Tax Commission publications are reference tools. They are not all-inclusive and should not be used as legal references. Tax laws may change due to legislative action. Changes to law will supersede any information in this publication.

Definition of School
School is defined as a public school district, a public elementary school or secondary school, electronic high school or a private school that provides instruction for one or more grades kindergarten through 12.

Who Must Pay or Collect Sales Tax?

Public Schools
Utah law provides for a sales tax exemption on sales or rentals to a public school. However, many sales or rentals by public schools and admissions or user fees are taxable. Exceptions are noted in this publication. The school must collect tax on its taxable sales or rentals of tangible personal property to students or to the public.

To qualify as a sale made to a public school, the purchase must be made with the school's funds. A purchase does not qualify for exemption if a school employee pays for the purchase with personal funds, even if the school employee is reimbursed for the purchase by the school.

Private Schools
Sales made to or by a religious or charitable institution are exempt from sales tax if the sale is made in the conduct of the institution's regular functions or activities. To qualify for this exemption, a school must qualify under section 501(c)(3) of the Internal Revenue Code and it must obtain a sales tax exemption number from the Tax Commission.

A seller must collect sales tax on purchases by a qualified 501(c)(3) private school unless the school presents the seller with a current exemption certificate, and:
1. the purchase totals $1,000 or more, or
2. the purchase, regardless of amount, is made pursuant to a contract between the seller and the school, or
3. the purchase is for public utilities.

A school may apply for a refund directly from the Tax Commission for qualifying purchases on which the seller collects sales tax. Applications for refunds may not be submitted more frequently than once each month.

Private schools which do not qualify as 501(c)(3) organizations are eligible for the sales tax exemptions pertaining to fundraisers, sales of food, educational supplies and materials, transportation and clothing as outlined in this publication. Such private schools must pay sales tax on non-exempt rentals and purchases of tangible personal property (such as construction materials) and collect sales tax on non-exempt sales.

Exemption Certificate
All qualifying tax exempt purchases made by private schools must be supported by a completed and signed Tax Commission form TC-721, Exemption Certificate. The school's assigned sales tax number must be entered on the form.

For public schools, a completed TC-721, purchase order or school district check may be used to evidence the exemption.

PTA
Charitable organizations may purchase and sell items tax free when the transactions are made in the conduct of the organization's regular functions. The Parent Teacher Association is a charitable 501(c)(3) organization whose purchases and sales are exempt from sales tax when made in the conduct of their charitable functions and activities serving Utah's public schools.

The PTA's sales tax exemption does not extend to a third party business that sells items through the PTA, even if the PTA receives some financial benefit from the sales.
Sales Tax License
All sellers required to collect sales tax must have a sales tax license issued by the Tax Commission. The Tax Commission recommends a school district obtain the tax license and report all sales by schools within the district. However, each school engaging in taxable sales may obtain its own tax license. A sales tax license can be applied for by filing form TC-69, Utah State Business and Tax Registration Application, or by applying online using OneStop Business Registration (OSBR) at https://secure.utah.gov/osbr/user. Government entities cannot apply using OSBR.

Taxable Transactions
The following are examples of transactions subject to sales tax.

- Sales of yearbooks, student directories, atlases, day planners and spirit packs.
- School supplies, i.e., paper, pens, paper clips, staples, etc.
- Sales from concessions stands.
- Admissions to swimming pools and charges to the public for the rental of towels, equipment or lockers (if the lockers are tangible personal property). However, charges for swimming or diving lessons are not subject to tax.
- Sales of items from a vending machine by private sellers. If the vending machine is operated by an outside seller who pays the school a commission or fee for placing the machine in the school, that seller is responsible for reporting and remitting the tax on the vending machine sales.
- Charges for school pictures. If an outside photographer sells the pictures and collects payment, the photographer is responsible for collecting and remitting the sales tax on these transactions.
- Sales of supplies or rental of school equipment for community education classes.
- Book sales (other than textbooks) from outside sellers. Group orders placed through the school for individual students are taxable. When the school places the order with the bookseller and pays with school funds, the school must collect sales tax from the student and remit the tax to the Tax Commission. Alternatively, if individual orders and payments are merely collected by the school and forwarded to the bookseller, the bookseller is required to remit the sales tax to the Tax Commission.
- Sales of items prepared, produced or manufactured by the students for sale to other students or the public. For example, items manufactured for sale by students in a junior achievement program or in a special class are taxable. The raw materials used as component parts or ingredients of the final taxable product may be purchased by the student or student sponsor tax free. However, use of the exemption requires the purchaser to obtain a sales tax license and to file sales tax returns.

Non-taxable Transactions
The following are examples of transactions that are not taxable.

- Sales of textbooks, textbook rental fees, laboratory fees, laboratory supplies, and other educational supplies required and sold to students by the school.
- Charges for use of the school’s copy machine by students where the copies are for use in classes or class projects.
- Sales of photocopies.
- Sales of school uniforms required by private or parochial schools and sold by the schools are exempt. Uniforms purchased directly from an outside seller are subject to sales tax.
- Amounts charged, collected and retained by the school for admissions to athletic events, school dances, school plays or other school related activities.
- Amounts charged by the school and passed through to a nonprofit organization or association authorized by a school board or governing body of a private school to organize and direct a competitive secondary school activity.
- Participation or sign up fees for drill team, cheerleading, band, athletics and other student activities. However, if the fee includes purchase or rental of non-exempt clothing or equipment, those sales and rentals are subject to sales tax.
- Sales or rentals of safety equipment, fees to recondition safety equipment, or sales of clothing a student is specifically required to wear as a condition of participation in a school-related event or activity and is not readily adaptable to general or continued use to replace ordinary clothing. If the fee for clothing and equipment can be waived under Utah fee waiver rules, it is exempt. In cases where the fee covers both non-taxable participation fees and taxable sales or rentals, the taxable portions must be separately stated or the entire amount is subject to tax.
- Transportation charges for official school activities.
- Fees charged to students to participate in athletic clinics or cheerleading clinics.
- Fines charged for overdue library books.
- Charges for advertisements in school publications.
- Charges to parents for use of the school-operated nursery taught by high school students under the supervision of a faculty member.
- Charges for parking permits.
- Charges for class schedule change fees.
- Fund-raising sales made by public or private elementary or secondary schools or their students are exempt if the purpose of raising funds is to purchase equipment or materials, or to provide transportation. To qualify for the exemption, the activity must meet all of the following conditions:
  1. The activity must be a part of an officially sanctioned school activity conducted in accordance with a formal policy adopted by the school or district governing the authorization and supervision of fund-raising activities;
  2. The funds may not be used to directly or indirectly compensate an individual teacher or other personnel; and
  3. The revenues from the fund-raiser must be deposited in a dedicated account controlled by the school or district.

- The sale of coupon books (e.g. Happenings books) by students or school organizations.
- Sales of food, food ingredients, or prepared food served by public and private elementary and secondary schools if the net or gross revenues generated by the sales are deposited into a school district fund or school fund dedicated to school meals.
• Sales of food, food ingredients, or prepared food served by qualified religious or charitable institutions if the meals are not available to the general public, including prepaid meals that are part of a student meal plan.

• Food sales by the school from vending machines owned or leased and operated by the school if the proceeds from the sales are deposited into the school or district lunch or meal fund.

• Sales of discount cards by a school to students that enable the students to make purchases from an outside seller at a discount. If the discount card is sold by the seller offering the discount, then the sale of the card is taxable.

---

### Purchases of Construction Materials by Public Schools

Construction materials purchased by or on behalf of public school systems are exempt from sales tax if the construction materials are clearly identified and installed or converted to real property owned by the institution.

---

Sales tax publications provide general guidance only. They do not contain all sales or use tax laws or rules. If you need additional information, call (801) 297-7705 or 1-800-662-4335, ext. 7705 (outside the Salt Lake area), or email taxmaster@utah.gov.
Request for Taxpayer Identification Number and Certification

Name (as shown on your income tax return)

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate ☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership)

☐ Other (see instructions) ➤

Address (number, street, and apt. or suite no.)

Requester’s name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the “Name” line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see How to get a TIN on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

☐ ☐ ☐ ☐ ☐ ☐

Employer identification number

☐ ☐ ☐ ☐ ☐

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and

2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and

3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

Signature of U.S. person ➤

Date ➤

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners’ share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester’s form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

• An individual who is a U.S. citizen or U.S. resident alien,

• A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,

• An estate (other than a foreign estate), or

• A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners’ share of income from such business.

Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.
The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
- The U.S. grantor or other owner of a grantor trust and not the trust, and
- The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8.

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS a percentage of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II instructions on page 3 for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see Special rules for partnerships on page 1.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account, for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name/disregarded entity name" line.

Partnership, C Corporation, or S Corporation. Enter the entity’s name on the "Name" line and any business, trade, or "doing business as (DBA)" name on the "Business name/disregarded entity name" line.

Disregarded entity. Enter the owner’s name on the "Name" line. The name of the entity entered on the "Name" line should never be a disregarded entity. The name on the "Name" line must be the name shown on the income tax return on which the income will be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a domestic owner, the domestic owner’s name is required to be provided on the "Name" line. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity’s name on the "Business name/disregarded entity name" line. If the owner of the disregarded entity is a foreign person, you must complete an appropriate Form W-8.

Note. Check the appropriate box for the federal tax classification of the person whose name is entered on the "Name" line (Individual/sole proprietor, Partnership, C Corporation, S Corporation, Trust/estate).

Limited Liability Company (LLC). If the person identified on the "Name" line is an LLC, check the "Limited liability company" box only and enter the appropriate code for the tax classification in the space provided. If you are an LLC that is treated as a partnership for federal tax purposes, enter "P" for partnership. If you are an LLC that has filed a Form 8832 or a Form 2553 to be taxed as a corporation, enter "C" for C corporation or "S" for S corporation. If you are an LLC that is disregarded as an entity separate from its owner under Regulation section 301.7701-3 (except for employment and excise tax), do not check the LLC box unless the owner of the LLC (required to be identified on the "Name" line) is another LLC that is not disregarded for federal tax purposes. If the LLC is disregarded as an entity separate from its owner, enter the appropriate tax classification of the owner identified on the "Name" line.
Other entities. Enter your business name as shown on required federal tax documents on the “Name” line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the “Business name/ disregarded entity name” line.

Exempt Payee

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the “Exempt payee” box in the line following the “Business name/ disregarded entity name,” sign and date the form.

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends.

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding.

The following payees are exempt from backup withholding:
1. An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),
2. The United States or any of its agencies or instrumentalities,
3. A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,
4. A foreign government or any of its political subdivisions, agencies, or instrumentalities, or
5. An international organization or any of its agencies or instrumentalities.

Other payees that may be exempt from backup withholding include:
6. A corporation,
7. A foreign central bank of issue,
8. A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,
9. A futures commission merchant registered with the Commodity Futures Trading Commission,
10. A real estate investment trust,
11. An entity registered at all times during the tax year under the Investment Company Act of 1940,
12. A common trust fund operated by a bank under section 584(a),
13. A financial institution,
14. A middleman known in the investment community as a nominee or custodian, or
15. A trust exempt from tax under section 664 or described in section 4947.

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 15.

<table>
<thead>
<tr>
<th>IF the payment is for . . .</th>
<th>THEN the payment is exempt for . . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest and dividend payments</td>
<td>All exempt payees except for 9</td>
</tr>
<tr>
<td>Broker transactions</td>
<td>Exempt payees 1 through 5 and 7 through 13. Also, C corporations.</td>
</tr>
<tr>
<td>Barter exchange transactions and patronage dividends</td>
<td>Exempt payees 1 through 5</td>
</tr>
<tr>
<td>Payments over $600 required to be reported and direct sales over $5,000 1</td>
<td>Generally, exempt payees 1 through 7 2</td>
</tr>
</tbody>
</table>

1 See Form 1099-MISC, Miscellaneous Income, and its instructions.
2 However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys’ fees, gross proceeds paid to an attorney, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see How to get a TIN below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see Limited Liability Company (LLC) on page 2), enter the owner’s SSN (or EIN, if the owner has one). Do not enter the disregarded entity’s EIN. If the LLC is classified as a corporation or partnership, enter the entity’s EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting IRS.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write “Applied For” in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering “Applied For” means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, below, and items 4 and 5 on page 4 indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on the “Name” line must sign. Exempt payees, see Exempt Payee on page 3.

Signature requirements. Complete the certification as indicated in items 1 through 3, below, and items 4 and 5 on page 4.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.
4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. “Other payments” include payments made in the course of the requester’s trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

\(1\) List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person’s number must be furnished.

\(2\) Circle the minor’s name and furnish the minor’s SSN.

\(3\) You must show your individual name and you may also enter your business or “DBA” name on the “Business name/disregarded entity” name line. You may not use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

\(4\) List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see: Special rules for partnerships on page 1.

\*Note. If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Note: If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:
- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Publication 4535, Identity Theft Prevention and Victim Assistance.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: spam@uce.gov or contact them at www.ftc.gov/tidetheft or 1-877-IDTHEFT (1-877-438-4338).

Visit IRS.gov to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.
