D. 2020-2021 Fee Schedule (First Reading) – Gary Warwood, Director of Accounting
The requirements for the 2020-2021 school year fee schedule include at least 2 readings allowing for public comment on the updated fee schedule and the fee schedule must be approved by April 1, 2020. The administration recommends an early implementation in 2020-2021 school year for the following requirements: one fee cannot be used to subsidize another fee or waiver, fees must be equal to or less than the cost of the activity and textbooks cannot be sold or charged a fee. Each school will set their own spend plan at or below the Board approved maximums. The fee schedule will be posted on the school’s website for parents to view.

The Administration is recommending changes to the fee schedule based on information gathered from principals, teachers and coaches after the implementation of the 2019-2020 fee schedule. The administration proposes an increase to the maximum aggregate amount for each student per year from $4,000 to $5,000. Mr. Warwood reviewed the process used to create the District fee schedule and key changes from 2019-20 fee schedule. The proposed fee schedule will be emailed to parents from the principals by Friday, February 21, asking them to review the fee schedule through a link to the district website and provide feedback to the principal. The administration will report back with comments and concerns received at the next board meeting. Presentation and Documents Available on BoardDocs.

E. 2020-2021 Lunch Prices (First Reading) – Leon Wilcox, Business Administrator
The last increase in lunch prices was prior to the start of the 2009-2010 school year. The District continues to struggle with hiring nutrition service workers due to low unemployment. Additionally, food costs continue to increase. Mr. Wilcox presented three lunch price options. Option one would not require a price increase however, the existing fund balance would continue to be depleted. Option two is a $0.15 increase which would cause the program to reach a break-even status. Option three is a $0.25 increase which would initially increase the fund balance but also delay further increases in future years. Presentation Available on BoardDocs.
