

## Assembly Presenter Application

Thank you for applying to be a presenter for assemblies and presentations in Canyons District. Canyons takes very seriously, content that is presented to our students. Parents are extending their trust to us on what their students hear/see while at school. Our schools are also asked to limit assemblies and protect instructional time to the greatest extent. So when an assembly or presenter is welcomed into the school it is important that the content be both appropriate and deliver a valuable and meaningful educational message.

Schools may only choose off of the [approved presenter list](#). Presenters will be vetted and approved/denied twice a year during the spring (for the following school year) or fall. Any appeals or reconsideration will also only happen in these twice a year meetings. Approvals will not be considered at any other time.

The committee that will approve or deny presenters is made up of district administration, principals from each level and parents.

The committee will look for several factors, including:

- Content is age appropriate.
- Presenters are qualified for the topic they are presenting by applicable credentials (i.e. degree, professional license, educational background, qualifying experience). This is particularly true for mental health and suicide prevention presentations.
- Content is appropriate in a school setting.
- Committee wants to know the format of your presentation and have a good understanding of our content.
- Social media review to see what a child sees if they look up the presenter.
- Content may or may not align with state educational standards, but will be expected to demonstrate a significant benefit to our students in an academic, career, safety or mental supports area. Mental wellbeing will only be approved if provided by those with credentialed experience in counseling, psychology or therapy.
- Authors must be traditionally published by a known publisher.

**Steps to complete to be considered at next Presenter Approval Committee Meeting**
