1. Public Open House – 6:00 p.m.

A public open house was held for patrons of the community to review information regarding the boundary study. The Board of Education and Administration engaged with the community to answer questions and listen to concerns.

2. Presentation/Patron Comments – 6:30 p.m.

Mr. Wilcox reviewed information regarding the boundary changes and school consolidation/closures. The District is studying boundaries to maintain optimal class sizes and a full menu of academic opportunities for every child.

The District's funding is based on state-legislated formulas. The largest funding sources is the Weighted Pupil Unit (WPU). For every student enrolled for 180 days in 2024-2025, the District will receive \$4,674 per student from the state for the 2025-2026 school year. With an estimated 659 fewer students for the 2025-2026 that equals \$3.2 million less funding for the district in 2026-27.

Mr. Wilcox reviewed where the District has been preserving funding for schools through absorbing district level administrative position, reassigning district office employees to work in the schools, delaying technology and equipment replacements to extend their use, placing a hiring freeze and prioritizing positions for employees if schools are consolidated.

Canyons has been subsidizing small schools to maintain staffing. Continuing to do so long term pulls funding away from other schools affecting class sizes, electives and student support elsewhere.

There were two proposals presented that would combine Park Lane and Granite and one of the schools would close. To align middle school feeders a portion of Granite Elementary would feed into Eastmont Middle school to align with Jordan High School's boundaries. The region of Granite Elementary that is being considered for transition to Lone Peak Elementary would attend Indian Hills Middle.

Independent studies will be conducted in the next two weeks to determine the fitness of existing facilities for increased traffic flows, transportation and walking routes.

Preschool and Special Education units are currently under review to explore where to locate early childhood classrooms and SPED units to best serve families and balance enrollment.

Future planning considerations include school rebuilds under study. There are many factors that this decision would depend on such as construction costs, interest rates, enrollments, building age and condition, debt repayments, taxable values of property etc.

School choice permits and proposed boundary changes to accommodate the school-transfer request for students impacted by boundary changes or school consolidations were reviewed.
