   B. Elementary Planning Time Task Force Proposal (First Reading) – Alice Meridith, Director of Elementary Principals and Sally Sansom, Director of Elementary Principals
   
   A task force was created in response to elementary teacher feedback. Negotiation teams authorized the creation and assigned the task force to explore options for increasing elementary planning time. The priorities are an increase in teacher planning time, maximizing instructional time, maintaining professional development, and maintaining PLC time. Ms. Meridith read the names of those who participated in the feedback groups. The elementary planning history timeline was reviewed. The protected planning time is crucial for ensuring that educators can deliver high quality instruction tailored to their students’ needs and learning objectives.

   The additional planning time is being proposed to retain and recruit teachers. Utah has a critical shortage of elementary teachers throughout the State of Utah. The top two reasons for a teacher’s resignation in 2022-2023 was a seeking a career change and accepting a position in another Utah district. Ms. Meridith reviewed the State accountability level, which has increased in the last 5 years, targeting elementary teachers.
Ms. Sansom presented the possible investment opportunities which include daily planning time, extended Friday planning block, the addition of assistant principals/administration interns, and IEP block scheduling. She explained the proposed options for each opportunity as well as the return on investment, risk and cost. Presentation available on BoardDocs.
