

Directions to Students

Today you will be taking the Reading Inventory (RI). This test will measure your current reading skills. Most of you are familiar with this test. The results of this reading test will be shared with your parents/legal guardian. It is important that you work hard and do your best! Do not rush through the reading test.

When you log in, you will be first asked to indicate what types of books you like to read. Choose three by clicking on the circles, then click next to continue to the test. Once the test begins, you will receive about 20 to 30 questions. This reading test typically takes around 25 to 35 minutes. In this Reading test you can skip a question! This skip feature can be used three times on the test. It will not hurt your score to skip.

You may now begin the test by double-clicking on the Reading Inventory icon on your screen.

Please raise your hand if you have any questions.
